DR. JACK STAUFFER WILKES

31ST PRESIDENT, CENTENARY COLLEGE

PRESIDENT'S REPORT TO THE BOARD OF TRUSTEES

"Superior liberal arts education" is the way one of the country's leading educators described Centenary to me. This year has been another year of progress toward the superior Centenary.

Academic Achievement

The college faculty was strengthened this year by the additions of many outstanding leaders. The faculty has been especially active as indicated by the reports on pages 18 through 87. No college of our size can claim a finer group of scholars and teachers.

The Faculty Self-Study Report and the Southern Association Visiting Committee have given us academic guidelines for future growth. Several suggestions including administrative reorganization have been implemented.

The effectiveness of our academic program is measured by the Graduate Record Examination scores and the graduate school records of our graduates. Both areas indicate we are making progress. Of course, the places of leadership our graduates assume in education, business, church, and community is our best evidence.

The faculty has adopted an advanced placement program to begin next year. This will enable outstanding freshmen to advance more rapidly.

Development and Public Relations

The Development Committee with Edwin Whited as chairman supervised the "Campaign for Excellence" in Shreveport and with the Louisiana Annual Conference of The Methodist Church. It has been completed with $1,849,835.16 pledged in the two campaigns. The city campaign led by John B. Atkins, Jr.

brought $1,312,104.68 in 1,332 pledges. The conference campaign led by Bishop Aubrey Walton and J. C. Love, Jr. brought $537,730.48 in 4,962 pledges. Much of the success of these campaigns is due to the outstanding work of these and other devoted leaders.

The college this year has attempted to develop closer relationships with the church. The ministers on the faculty have spoken 207 times at various church meetings. This does not include visits to churches by music or drama groups or by other members of the faculty.

The Alumni Association has enjoyed an especially fine year of achievement under President Cecil Ramey. The enthusiastic Homecoming Celebration indicates even greater growth for the association in Shreveport and in the area chapters.

Centenary continues its proud record of community and regional educational leadership as evidenced in the Middle East Conference, the Science Fair, the Teacher's Fair, the Personnel Conference, the Gymnastics Clinic, and the Forensics Tournament. The music, drama, art, and library departments continue to bring worthy cultural standards to the region.

Student Life

During the past year American students have been restless in their search for goals. Centenary students and faculty have had many conversations concerning student life. New regulations are being adopted concerning the Honor Court. The Student Forums Committee has brought a number of outstanding speakers to the campus. Other areas of student government are being studied for possible changes.

Centenary continues its strong emphasis on the religious life of the students. Newsweek Magazine in its survey of student life in America showed that the student

in the church-related college experienced much fewer problems related to religious beliefs. Bishop Gerald Kennedy of Los Angeles, the outstanding Methodist leader, led an impressive list of religious speakers to the campus this year. Training was given to laymen of the region by the Speech Department in the preparation of religious talks. The Department of Religion is planning a program in churchmanship to be offered in the near future.

The increased number of applications for admission next fall indicates that our increase in tuition will not reduce the number of full-time students. (We are prepared for a possible decrease in part-time students.) The renovation of Rotary Hall makes it possible for us to have a larger number of men living on campus. Except for the Shreveport area, the largest groups come from Dallas, Houston, New Orleans, and Little Rock in that order. Beginning next fall we will require that the College Entrance Examination Board test be taken before admission. This will enable the strengthened admissions program of the college to evaluate our incoming freshmen with greater accuracy.

Planning for the 150th Anniversary

Under the leadership of the Development Committee the planning of a ten-year program of development leading up to the one hundred and fiftieth anniversary of the founding of the College of Louisiana has begun. This program will involve Trustees, Church, Faculty, Students, Alumni, and all the friends of the college. It will enable the college to reach a new plateau of academic accomplishments and will require that we also reach a new plateau of gifts received by the college from its many friends. New

resources must be found to meet the needs of a college growing in faculty strength and student achievements.

A summary of the present thinking concerning the ten-year program follows on pages 9 through 17. You will note that this will require outstanding trustee leadership to meet these goals.

THE OLDEST OF CENTENARY'S modern buildings got a new name during the past year. Long known merely as the "Science Building", it's now the Mickle Hall of Science, in honor of President Emeritus Joe J. Mickle. It was the first unit completed under the Master Building Plan.

10 YEAR PLAN 1965-1975

A carefully planned expansion of student enrollment from 880 in 1965 to 1500 in 1975 will enable Centenary College to discharge more fully her desire to provide an excellent education to deserving students. The population growth of Louisiana and the nation and a keen awareness of value in quality in education, particularly in light of technological advance in the last decade, are our reasons for the projection of this goal.

It should be understood that this expansion will be carried out only if every other important educational aspect at Centenary can be improved simultaneously. The student to faculty ratio will be approximately 15 students to 1 faculty member.

Severe competition among quality institutions for able students has made it necessary that we strengthen our under-graduate program at every level. If we seek quality education as our product, in view of the competitive situation among colleges at the present time, the 10 year program as proposed is an absolute minimum for maintaining pace and showing adequate improvement.

STUDENT BODY

Our boy-girl ratio is at present approximately fifty-fifty. Under our projected plan, it should be shifted to 67% boys and to 33% girls. Our resident versus non-resident student enrollment should be shifted from a current 55% to 45% to 67% and 33%.

Geographic distribution of students is currently at 82% South and Southwest and 18% from other states and several foreign countries. To move to a position of regional and national importance and to offset the impact of

L.S.U. at Shreveport, it will be necessary to alter this distribution to 60% South and Southwest and 40% from a wider geographical range.

A description of student ability, 1965, shows an overall average of present freshmen with a 2.6 grade average of a possible 4.0 with 1/3 of this class at 3.0. The 1975 freshman group should be 2.75 with 1/2 of the class at 3.0.

FACULTY

An analysis of faculty quality and compensation in 1965 shows a full-time faculty, in non-music areas, of 62 with 40% holding the Ph.D. degree or its equivalent. By 1975 at least 65% of the faculty should hold the Ph.D. degree. Average compensation (including fringe benefits) for full professors for 9 months for 1965 averages $10,200.00 annually. By 1975, this average for full professors should reach $17,500.00.

COST

How can we attain these objectives? In order that we may attain our goal of increasing the quality of Centenary College in depth by 1975, we will need a total of $19,885,000.00.

SOURCE OF FUNDS

Possible sources of these funds are described in the following ten-year profile.

CENTENARY PROFILE

At the present time, a committee of administrative officers and faculty members at the college is preparing a 10 year budget as an instrument to assist us in long-range planning. This document will examine the

college from 1955 to 1965 as a profile of the past and will project our program from 1965 to 1975 providing us with a profile of the possible.

On the following pages the form being utilized at Centenary is reproduced.

Our 10 year plan as briefly presented on these pages will, after study and approval by Trustees, Administration, and Faculty groups, be presented to the public in the Fall of 1965. We are hopeful that Louisiana Methodists, Trustees, business, and industry, foundations, and friends will join us in making the next decade the most significant in the long and honorable history of Centenary College.

STILL A GLORY of the Centenary campus, despite the subsequent addition of many newer buildings, is the Marjorie Lyons Playhouse, home of the Centenary Jongleurs. It's rated among the finest college theatres in the nation.

PROFILE OF CENTENARY COLLEGE -- 1955-1975

NOTE: This profile is of a preliminary nature and is subject to further study and revision. Projections and planning reviewed here are products of a joint faculty-administrative committee working with President Wilkes.

To: President Jack S. Wilkes

From: B. C. Taylor, vice-president

Subject: Report to the Board of Trustees

My relationship with Centenary College began in the Fall of 1920 when I transferred from Florida Southern at the end of my sophomore year. After graduating from the Seminary, I returned to Louisiana and have been active in college affairs since that time.

In 1939, Dr. Pierce Cline, President of Centenary College, invited me to become a member of the Board of Trustees. I served in this capacity until I joined the Administrative Staff, three years ago, as Vice-President. During these years of service to the College I have given of my time, talents and resources to help forward the progress of the College. I am the oldest, active, ministerial trustee on the Board. (Henry Bowdon is a close second.) During the past three years my special area of responsibility has been Conference Relations, Chairman of the Scholarship Committee, special conferences on the Campus; served as Vice-President of the Louisiana Foundation of Privately Supported Colleges and Universities and as goodwill Ambassador with other denominations. I have, also, obtained some new legacies for the College.

I have spoken in every major pulpit in the Louisiana Conference and in many smaller congregations. I represented the College at 24 District Conferences, spent four weeks calling for the College Foundation; arranged for fifteen special statewide conferences on the Campus, and many smaller ones.

I participated in the State Campaign for Excellence, last Fall; we now know that we have a good relationship with the Conference and since our President, Dr. Wilkes, is a minister, this relationship should be strengthened in the coming months.

Now, I must state to you my position! I am retiring from the Administrative Staff at the coming Annual Conference, the calendar has slipped up on me, it says I am 65, past; my college friends say they are looking forward to 65. My brethren are asking about my health; one man told me he wanted my job. So, I must be marked for the "ease-up" relationship.

This is the year to quit; Medicare is coming in; the poverty program is taking shape; Social Security is a reality and the Conference retirement plan is good. If I can qualify for all four of these, I'll have it made.

In concluding this report, I would like to make the following recommendations:

1. That a person be employed to assist the President in his responsibilities to the Conference and other areas of concern. This will help him live longer. This would also, release the academic Dean from some of his present duties and enable him to develop a better program for a college of Excellence.

2. That some definite guidelines be set up for Administrative retirement. This would relieve any embarrassment in the future and the Administrative Officer would know how to plan his terminal program.

My interest in Centenary will not abate because of my changed status. I shall always work for the College, wherever I am. I believe it has a great future.

The Journal of True Education carries this quotation: "The world is not interested in the storms you encountered, but whether you brought in the ship." Today, I anchor my ship in the College Harbor. I have tried to bring it in safely. It may be scarred from battle, but the flag is still flying.

HONORS BY THE SCORE came to Centenary students during 1964-65. In the top photo Dr. Leroy Vogel, head of the department of history and government, presents certificates of membership in Omicron Delta Kappa, national leadership fraternity, to Don Scroggins of Shreveport (center) and John Hooker of Leesville (right). Carol Wood (lower left), a religion graduate, has entered the Methodist Mission Field and will spend her next three years in Koera. Phyllis Payne (right), English major from Marshall, Tex., was awarded a teaching assistantship at the University of Kansas.

To: President Jack S. Wilkes

From: Bond Fleming, Dean of the College

Subject: Report to the Board of Trustees

CENTENARY and EXCELLENCE: One of the main concerns of the year has been the fund-raising campaign, called "a campaign for excellence." Such a theme is appropriate for a college whose purpose is to be "an academic community where excellence is encouraged and individuality is respected." These two things belong together; the first is not possible without the latter, whereas the latter without the former is anarchy.

SELF-STUDY: Perhaps the main event of the year was the completion of the decennial institutional self-study, which is required by the Southern Association of Colleges and Schools. The visitation committee has made its report. The committee gave us more commendation than we had given ourselves. We are trying to implement the goals we set for ourselves and the standards recommended by the visitation committee.

NEW PROGRAMS: We now require the Scholastic Aptitude Test scores of the College Entrance Examination Board, and henceforth seniors will be required to take all three tests (Aptitude, Area, and Advanced) in the Graduate Record Examination. We have inaugurated the Advanced Placement Program, whereby qualified freshmen may be given credit for college courses on which they have passed the placement examinations. This program, we hope, will be more for enrichment of curriculum than for acceleration of graduation. It may be both. It is an instance of co-operation between the college and the high school, to meet the needs and challenge the minds of bright students. Also we will now admit outstanding students who have finished the junior year in high

school, provided they have the recommendation of the principal; and qualified high school seniors will be allowed to take limited work in college.

During 1964-65 we have inaugurated the Washington Semester program, whereby one of our junior students spends a semester at the American University in the nation's capital, studying government-in-action. Miss Cynthia Haug, our first student in the program is thrilled with her opportunity. She wants other students to have such an experience.

SENIORS and AWARDS: The roster of seniors who have won, or will win, awards for graduate study is incomplete. Last year our graduating class won awards totaling over $40,000 in addition to tuition. It is probable that our senior class this year, which is larger, will do even better. E.g., Keith Dobbins, a history major, has won an award for a 12-month period of study in the East-West Culture Program, at the University of Hawaii, and Richard Cristofoletti, in Spanish, has won a Fulbright Scholarship for a year's study in Spain. All of the seniors in the foreign language department who can use awards have won them, and five of six graduating seniors in chemistry are going on to graduate school with fellowships or assistantships. Two seniors in the English Department have won National Defense awards; these are valued at $6600 each.

STUDENTS and MATURITY: Centenary has many students of high calibre, students who are a strong challenge to our faculty. The students sometimes seem more critical than they are creative; it is a test to respect their individuality, but this is necessary if excellence is to be encouraged. Excellence cannot be coerced. The greatest task in any community is to respect freedom yet achieve unity. Students may criticize or agitate in the

columns of the college paper, or in the student senate, or about requirements at the college. All this is a part of their growth. A commendable evidence of the students' eagerness to learn is the non-credit discussion group which meets bimonthly. Faculty willingness to meet and discuss various subjects with students is indicative of their dedication to their task of helping young people to think. The diligence of the students in their effort to improve and strengthen the honor code at Centenary is encouraging and challenging, and refutes in part the charge implied in the question, "What's wrong with our students?"

FACULTY: The report on faculty research and publication is in another section. Our full-time faculty during this year has numbered 71. Forty per cent of those in non-music areas (25 of 62) have terminal degrees. At the pre-registration faculty conference in September ten new faculty were introduced, as follows:

Shirley P. Callen, Associate Professor of English, B.A. Millsaps; M.A., Ph.D., Tulane.

Dorothy Rhea Cochran, Assistant Professor of Modern Languages, B.A., 1959, S.M.U., M.A., 1961, S.M.U.

Vannie Edwards, Instructor in Physical Education, B.S., Southeastern; Graduate study at L.S.U.

Alton O. Hancock, Assistant Professor of Religion, A.B., 1954, Centenary; B.D., 1957, Ph.D., 1962, Emory University.

Richard A. Higgins, Assistant Professor of Speech and Drama, B.F.A., 1954, University of New Mexico; M.A. in T.A., 1960, Pennsylvania State University.

Viva L. Rainey, Assistant Professor of Political Science, B.A., 1934, M.A., 1947, Univ. of Chicago; Ph.D., 1963. Univ. of Madrid.

John R. Russell, Assistant Professor of German, A.B., 1954, A.M., 1957, Princeton.

James M. Shea, Instructor in Philosophy (Woodrow Wilson Intern in Philosophy), A.B., 1960, U. of Virginia; graduate study at Cornell University.

Vera Snelling, Assistant Professor of Education and Psychology, B.S., 1937, Centenary; M.A., 1946, George Peabody College.

Robert S. Wynn, Assistant Professor of Education and Psychology, B.A., 1950, Duke University; M.Ed., 1959, Univ. of Arkansas.

Barbara Faye White, Instructor in health and Physical Education, B.S., Texas Christian University.

One emeritus faculty member, Mrs. Alice Alben, former librarian, died during the year. Six of our current faculty will not be with us next year. In addition, two others will be on leave working on terminal degrees: Prof. Leslie Burris, English, L.S.U. (assistantship); Prof. Dale S. Johnson, English, University of Michigan (Danforth Teacher Fellowship). Three faculty members: Edward M. Clark, Professor and Head of the Department of English; Howard Elder, Assistant Professor of Latin and Director of the Evening Division; and John B. Entrikin, Professor and Head of the Department of Chemistry, have reached retirement age of sixty-five. I recommend that each of these persons be continued on a one-year appointment. The roster of replacements is not complete. The names and credentials will be submitted to the trustee committee on the faculty.

ATTENDANCE at CONFERENCES: Attendance at academic and professional conferences is a source of new ideas and inspiration to faculty members. The number of attendants at State conferences was forty-nine; of these ten persons were officers, and five persons participated in the conference programs, by presiding at a session or presenting a paper. The number of attendants at regional conferences was forty-two; eight Centenary people were officers, and six participated in the regional conference programs. Thirty-four attendants were registered for national conferences, and three of these participated in the programs.

RESEARCH and SERVICE: Some indication of the creative study by the faculty is evidenced by the report in another section. It is worthy of note that ten new paintings have been completed by Professor Cooper and that members of the Music faculty have participated in a total of thirty-three concerts and recitals. Ours is a talking faculty; they have given approximately 150 public talks and addresses. This is in addition to the regular teaching of Church School classes by several members of the faculty.

Through a grant from the Sperry and Hutchinson Corporation the college was enabled to sponsor a Regional Conference on the Middle East. This attracted wide interest; several professors listed the conference as the outstanding event of the year.

Summer projects for the faculty include the following: Seven people will be working on their dissertations; five will be working on books; twelve plan to do research for articles; three of our people will study overseas: Dr. Rainey in England, Mr. Halliburton in Spain, and Dr. Vogel in Egypt. The prospects of summer enrichment for the faculty make next year inviting.

Professor and Mrs. Orlin Corey will return after a year's leave. They directed a touring company of players during the first semester in England and South Africa. Our students who were with them returned, but the Coreys are continuing a study-tour around the world. We anticipate their return to the Marjorie Lyons Playhouse with pride and great expectation. Two other cosmopolitan notes among the faculty relate to the Physical Education Department: Mr. Vannie Edwards was coach for the United States women's gymnastic team at the Olympic Games in Tokyo, and Miss Barbara Faye White was on the Curtis Cup Team in golf which played in England and France. Also we have been fortunate to have back Dr. Virginia Carlton, who was a Fulbright lecturer in Ghana last year. Again this summer she will teach at Northwestern University in Illinois.

CURRICULUM and FACULTY LOAD: Progress was made during the year in reviewing and revising the course offerings. Numerous courses were deleted. We have planned the cycling of courses in the hope of decreasing the number of advanced classes with small enrollments. It is not possible to make quality education pay for itself in tuition charges, but we are trying to make it less expensive. At the same time we are trying to reduce the teaching load of the faculty to twelve hours. This will allow more time for creative study and research, and for contact with students outside of class.

SPECIAL PROGRAMS: The Evening Division is a part of the total college. Professor Howard Elder spends half his time as Director of the Evening Division and of the Barksdale Program. In an effort to maintain a high quality of instruction, full-time teachers are used in many of the courses. Qualified persons from the business and professional community are secured to teach the other courses.

It may be that we shall lose the program at the Barksdale Air Force Base. We have worked hard and long in trying to provide courses of study which would meet their need, and satisfy their interest. We resolved the difficulty concerning segregation in the Base program, but the raise in tuition has caused the officials at the Base to consider seeking elsewhere for a program.

We have worked out a plan with the leaders of the new Nursing School of Confederate Memorial Medical Center. Students admitted to the Nursing School will be full-time students at Centenary for one year. I am hopeful concerning the prospects for this program. (A member of the Centenary staff will serve on the Admissions Committee of the Nursing School.)

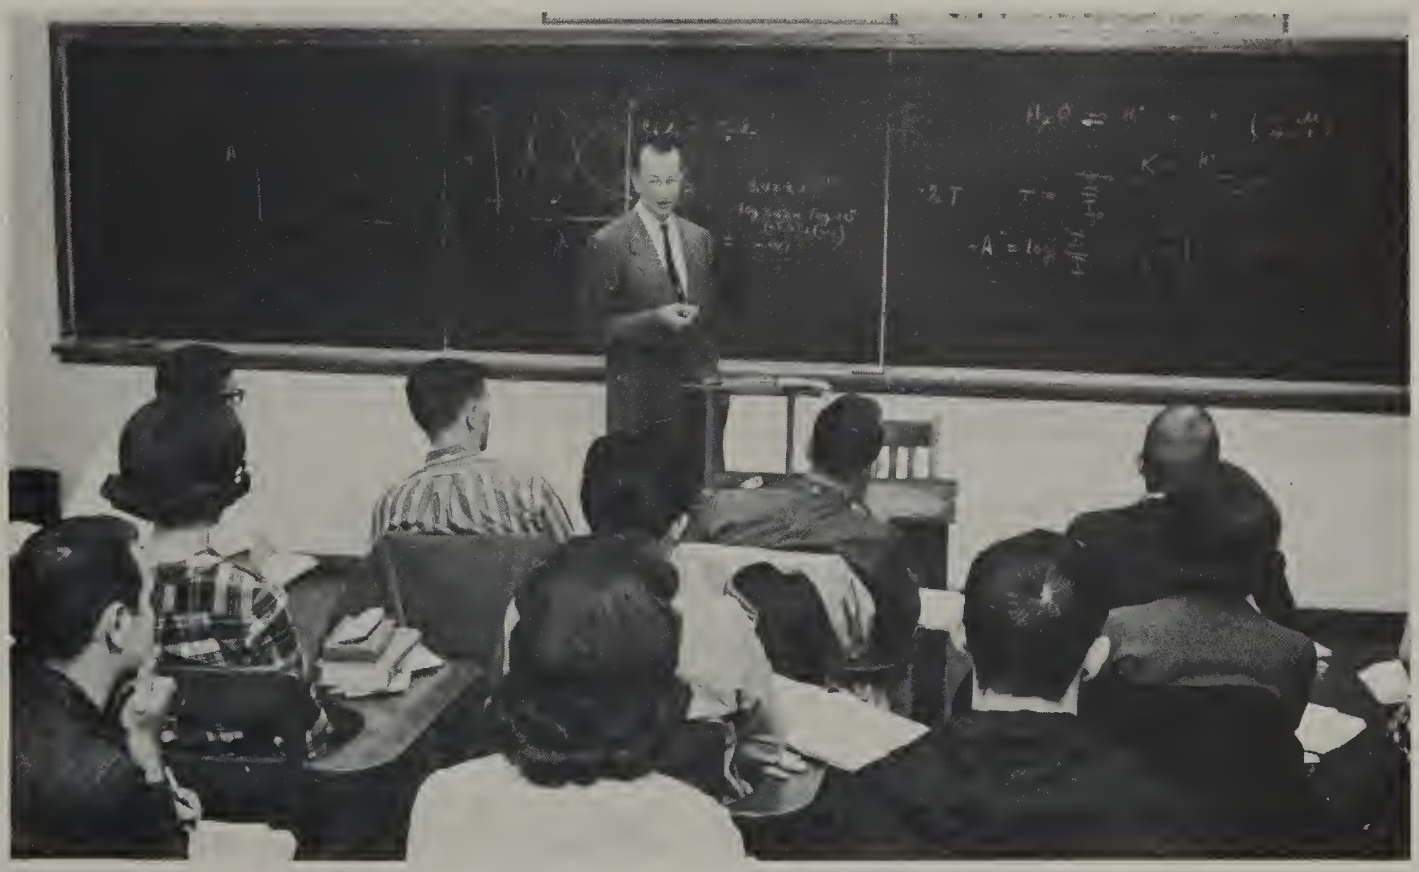
CENTENARY and COMPLIANCE: I feel compelled to raise the question of the "Assurance of Compliance" with the Civil Rights Act of 1964. I am not ready to lead a moral crusade nor eager to embarrass the Board of Trustees. However, it should be pointed out that compliance does not mean that we would necessarily become integrated; on the other hand, it would boost the morale of the faculty and of the students and would be in keeping with what I sense to be the expectations of the local community. Furthermore, it would set us free of the frequent question, "Can we do this - or get this - without having signed the compliance agreement?" As a member of the Methodist Church, as a citizen, but even more as an educator levied with the responsibility of trying to make Centenary a superior liberal arts college, I recommend that we sign the assurance of compliance.

NEEDS in the FUTURE: A development committee, composed of faculty and trustees, is at work studying the past and projecting goals for the

future. There are many problems but there are many resources to meet them. Perhaps the most outstanding need is for books. Visiting scholars are delighted with our library building but wince when told that we have only 65,000 volumes; our college library should have 100,000. We need very much to strengthen our staff in the departments of physics, mathematics, business, psychology, sociology, and philosophy.

It is my duty to alert you and the trustees that increases in our salary scale are not keeping pace with increases in the national scale, and that the recent raise granted teachers in the state colleges may make our task more difficult in our search for new faculty.

On behalf of the faculty I express appreciation to the trustees, and invite them to visit the beautiful campus, and to attend convocations and public assemblies.



CENTENARY'S MOST URGENT PROBLEM continues to be attracting and keeping fine teachers in an ever more competitive market. Stanton Taylor, of the department of chemistry, uses the blackboard to illustrate a lecture.

SNOW, AN UNUSUAL PHENOMENON at Centenary, provides an interesting frontispiece for the Hurley Memorial Music Building, most recent addition to the college physical plant.

To: President Jack S. Wilkes

From: Rule Beasley, Director, School of Music

Subject: Report to the Board of Trustees

In its continuing program dedicated to the development and training of musicians, the School of Music concentrates primarily on the areas of performance, teacher education, and church music. Our objective is to give the student a well-balanced orientation into the cultural and aesthetic values of music while equipping him with those skills and techniques demanded by the particular field which he has chosen to enter. We are delighted with the marvelous facilities provided in the Hurley Music Building.

The academic year we are now completing has seen a more than adequate realization of these objectives. Our graduates continue to please us with their progress in the teaching profession, the performing profession, church work, and graduate school.

Our newest activity, the Opera Workshop, had an extremely successful "first production" in January. Two one-act operas were presented twice with the splendid cooperation of the Jongleurs, whose sets, staging, and direction contributed immeasurably to the impact of the performances.

In preparation for next year is a reworking of two required courses in the theory section. We are seeking to augment rhythmic comprehension in our freshman and sophomore students by inaugurating "programmed" techniques of instruction into the areas of rhythmic dictation and sight-singing. One of our staff members is currently experimenting in this field, and his work will be incorporated into class instruction in the Fall of 1965.

The Faculty Recital Series presented five public concerts during the year. Performing were Mr. Beasley, pianist; Mr. Teague, organist; and Mr. Dean, organist. The student recitals have been particularly high in quality this year. We are most grateful to these ambitious youngsters for their significant accomplishments in performance.

Television and radio have been most generous to the School of Music this season in enabling us to present concerts and recitals to a mass public. Mr. Teague has given a series of organ broadcasts weekly throughout the year, and the new radio show, Centenary Magazine of the Air, has opened with a musical selection by one of our staff each week. Finally, there were six television shows during the year featuring recitals by both students and faculty from the School of Music.

A CONTINUING GLORY of Centenary is it's famous Choir, directed by Dr. A. C. Voran. Here the choral group is shown in its traditional August setting at Hodges Gardens.

To: President Jack S. Wilkes

From: Charles W. Harrington, librarian

Subject: Report to the Board of Trustees

During the ten months from June 1, 1964 to March 31, 1965, the Library pursued a program of two general objectives that were of approximately equal importance in the over-all design to promote the excellence of Centenary. Steady efforts were made to improve library service and to encourage increased and more efficient library use. At the same time, the Library sought to bring its collection up to the minimum of 70,000 carefully selected volumes (actually a total of perhaps 80,000 volumes) which was recommended by the American Library Association Standards for Small College Libraries of 1959 and endorsed in the Centenary College Self-Study of 1963-1964. The faculty and the administration have cooperated fully with the Library staff in carrying out these objectives.

As part of the program to improve library service and use, the Reference Department last summer published a handbook, "Keys to the Centenary College Library," to provide students and visitors with a guide to the Library. From June to March, the Reference Department conducted 26 library tours, mainly for the Freshmen English Classes. It also assisted in the preparation of 34 new bibliographies and reading lists for various classes and organized 31 lists of "Selected New Books at the Library" which appeared as a supplement to the weekly issues of Scuttlebutt. Various exhibits have been used to promote reading and to publicize new books and services. Reference service and individual assistance in library use have been provided when requested. These requests have been frequent and the

resulting instruction is believed to have been the most effective means at present available to help students perfect their skills in library use.

The Circulation Department has assisted with these Reference Department programs. It has also been responsible for keeping the collection in order and for seeing that each student gets the materials that he needs. The student assistants have been particularly valuable in this work, and in most cases they seem to have acquired a great deal of personal benefit through the skills and techniques that they learn in their jobs.

The success of the program to improve library service and use is nevertheless difficult to measure because of the intangible nature of the results. Counts of library attendance indicate that there are usually from ten to twenty per cent more people in the building this year than at corresponding times last year. The circulation of books for home use has also increased five per cent so that the total circulation for the current fiscal year (June 1 to May 31) should be approximately 40,000 volumes. Part of these increases are a result of greater use of the library by outsiders who are not connected with Centenary. The library now has 683 registered guest borrowers. The larger part, however, reflects the increase in Centenary enrollment and increased and more efficient library use by the students and faculty.

In the effort to increase the size and improve the quality of the collection, the Technical Processes Department added some five thousand volumes during the ten months from June to March. Approximately three-fourths of these books were purchased with college funds. Approximately one-fourth represented direct gifts of cash or books. There was an estimated total of 66,168 accessioned volumes in the collection on March 31.

Technical Processes Activities: June 1, 1964 to March 31, 1965

New Items Processed	5,184
Items Recatalogued	1,223
Items Withdrawn	314

This represents an increase of 17 per cent in comparison with the cataloguing activities during the same ten months of 1963-1964. It is anticipated that a total of some 6,000 volumes will be added during the current fiscal year and that the collection will contain approximately 67,200 volumes on May 31.

The Library is meanwhile making a special effort to improve the accuracy of its records of periodical receipts and holdings. When possible, it is trying to replace missing issues and fill in back files of these periodicals through purchase and through exchange with other libraries.

The installation of map molding in the Library Foyer and on most of the interior walls has provided an effective gallery for rotating exhibits and the means for displaying most of the items in the Library art collection. Students, faculty, and visitors enjoy both the changing exhibits and the permanent collection. Both attract people to the building, and the changing exhibits in particular, provide opportunities for the users of the library to see many types of art that would not otherwise be available on the campus.

The Friends of the Centenary College Library completed their first official year of operation on December 31. This new organization has held monthly meetings during the school year and has done an excellent job in promoting community interest in the library, attracting many valuable gifts of books, and providing $1,393.50 for the purchase of books and microfilms. The deaths of Librarian Emeritus Alice S. Alben and faculty wife Frances Hanson prompted memorial gifts of nearly $600. The total gift and

miscellaneous income of the library will approach $5000 for the year. The Friends have been either partly or indirectly responsible for at least half of this income.

The new library building, the steady growth of the collection, and the interest of the students, faculty, and Friends have placed the library in a position approaching the minimum Standards for Small College Libraries that were drawn up by the American Library Association in 1959. To provide for the future, the library must not only meet these standards which are already six years old but make plans to move beyond these recommended minimums. The library is fortunate in having superior facilities, a growing collection, and a competent staff, but more financial support will be needed to meet its growing requirements. The need for many materials not at present in the collection, the expansion of knowledge, and rising prices will make future increases in the book and periodical budgets necessary. Comparable increases will be needed for supplies, equipment, and binding expenses, and more trained personnel will soon be required to service the collection and assist the students and faculty in its use.

To: President Jack S. Wilkes

From: Julia Packwood, Dean of Women

Subject: Report to the Board of Trustees

The educational task of a personnel dean is to help students grow toward a maturity of self-direction and self-discipline through the personal and group relationships to be found, mainly, in extracurricular activities. This is a continuous task in a constantly changing community. Activities range from social to student government and are an area which the student considers to be his own rather than that of the college although this is not a realistic view.

The women students on the Centenary College campus have shown considerable advancement in self-development during 1964-65. Their attitude toward the responsibilities they have assumed, their skill in exercising judgment and authority, and their reliability in performing the necessary duties have all shown encouraging progress. Specific groups in which this change has occurred are the Associated Women Students and the Panhellenic Council.

The Associated Women Students, which is the women's student government whose special province is dormitory life, is in its second year on the campus. The Association put into effect a much-improved dormitory handbook. These improvements together with skills the women have learned have been particularly effective in helping to unify the government of the three women's dormitories and in the execution of the government within each dormitory. A much better living atmosphere has resulted, but much more growth is still desirable.

The Panhellenic Council has revised its handbook, conducted a successful formal rush, and stabilized its financial program. There is a much better Panhellenic spirit, which helps prevent misunderstandings and conflicts. Women attending national conferences find they can discuss with pride their organization and learn that it is much more effective than those on many other campuses. Again, this is merely a good beginning, and there is still much to accomplish.

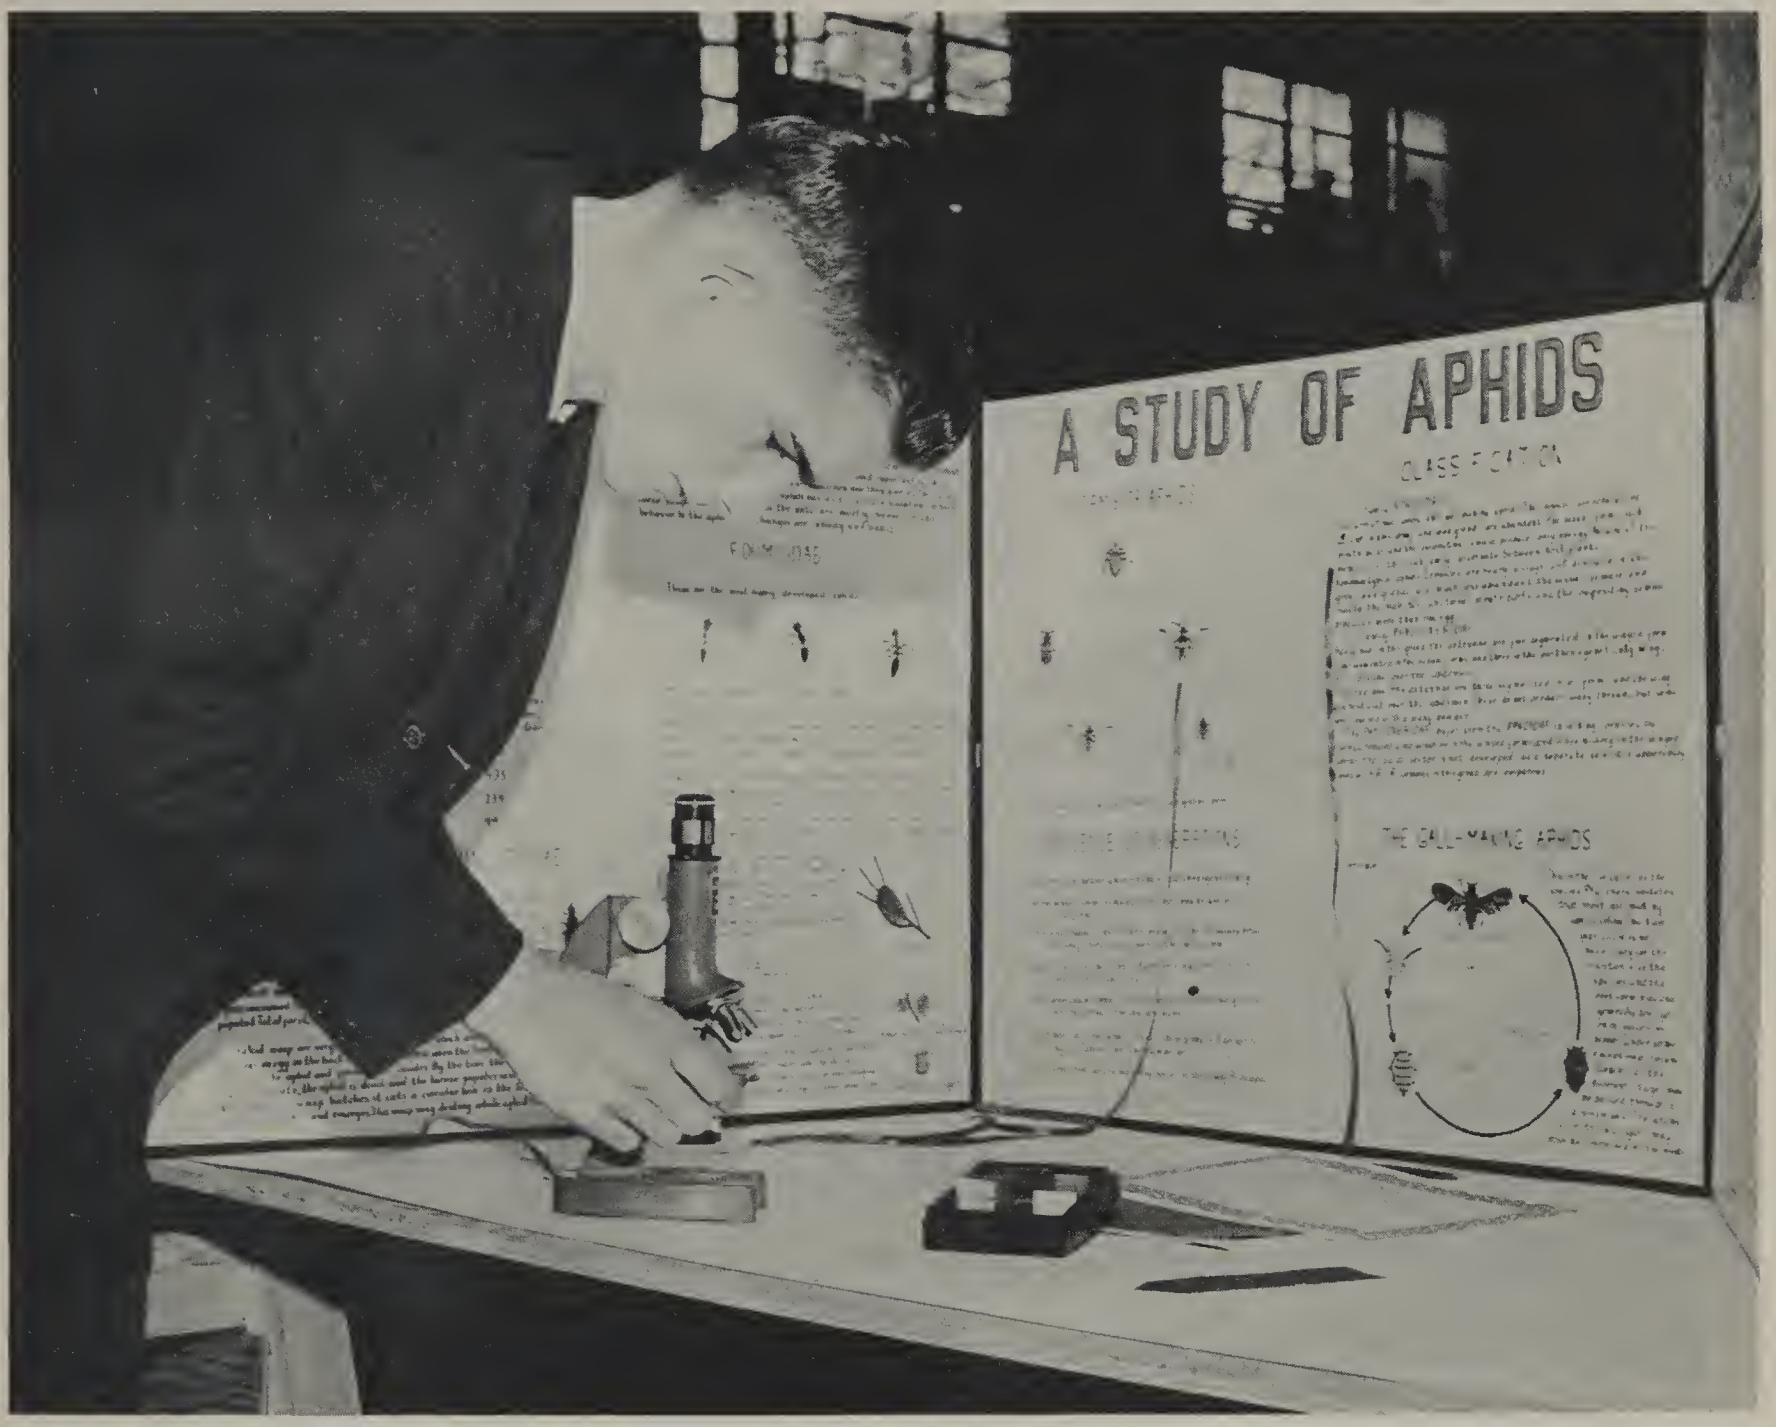
Workshops and weekly meetings provided training and instruction for housemothers who, through their expression of concern for the individual woman, have made a valuable contribution to the community life of the dormitories. Resident assistants, who are women students, lent an atmosphere of order and courteous service.

Interviews with Freshman dormitory women helped in the orientation process. They also provided an opportunity for college personnel to indicate a personal interest in and concern for each new resident.

During the fall semester, women students with three or more deficient grades were interviewed with the hope of helping them discover the cause of the difficulty and to search for ways of remedying the situation.

Numerous social events, meetings, and personal interviews are the tools used by personnel deans to accomplish their tasks. There has been an encouraging increase in the number of students who are willing to seek personal counseling in an effort to solve their problems.

In summary, while it is evident that much progress has been made toward the goal of helping individual students grow in the skills of self-direction and self-discipline, there is still work to be done to create desirable conditions under which this can best take place.



A MAJOR ANNUAL EVENT at Centenary College is the Region I Science Fair, co-sponsored with the Shreveport Journal and the Science Education Council. The event is held in Haynes Memorial Gymnasium with college faculty members directing.

To: President Jack S. Wilkes

From: W. C. Hohmann, Dean of Students and Director of Admissions

Subject: Report to the Board of Trustees

The year 1964-65 has been rather productive in the areas that I served.

We have had the highest fall enrollment at Centenary since the war. The girls' dormitories were completely filled (248), and we had 170 boys living on campus. With the renovation of Rotary Hall we look forward to having many more young men living on the campus.

The outlook in admissions for 1965-66 is favorable. We have more applications at this time (264) than we had last year (225). Of course the months of July and August will really tell the true picture for the year 1965-66.

In working with the students, they have been very active in the Student Senate trying to assume more personal responsibility for the government of the campus. They have added senators to the senate in the place of class officers to enable them to have a complete senate to work during the last two months of this school year in preparation for the coming school year. They have established a Student Forums Committee, and this committee has worked very hard to bring good speakers to the campus. I believe this group will do an excellent job in the year ahead.

The men's dormitories are being handled very well by Student Advisors along with one housemother. It is my plan for the coming year to place one Student Advisor in each suite of Cline Dormitory to try and eliminate the noise volume that is created by the open court that is built inside of the dormitory.

I have personally counseled all students who have asked to be admitted who do not have the necessary grade average for Centenary College and explained to them the problems that would be facing them on their admission to Centenary College on probation. This includes high school students as well as college students.

I have also been able to do a little more personal counseling for the students who have emotional and or academic problems.

We have tried to continually improve the college calendar by working very closely with the Business Office and the Maintenance Department. We hope to make even further improvements during this next year.

I have met regularly with the following organizations: Student Senate, Student Affairs Committee, Inter-fraternity Council, and the Ad Hoc Committee that was formed by the Student Senate to study the Honor System and other phases of student government.

Freshman orientation was very successful with approximately 300 parents in attendance during the Sunday orientation luncheon program.

Registration for all students was held at the beginning of the fall, spring, and summer sessions. We have made some changes that have helped to eliminate the crowded conditions in the basement floor of the science building.

These changes worked very well during the spring registration, and we hope to continue studying this problem for continued improvements during the registration time. The Moore Student Center has been very active in providing activities for students; and Mrs. Fannie Nichols, the Director, has worked well with the students to add a number of valuable programs to their activities schedule.

The health services although limited have been handled very well by Mrs. Robbie Campbell, our Registered Nurse. We hope in the future that an infirmary with doctors available for consultation can be worked out. This would help a great deal in our health service program.

As a whole, we feel the activities held by the above mentioned offices have worked very well; but we realize that there are many areas that can be improved, and we will work toward that end.

A NEW FEATURE OF Centenary's student life during the past year was the Student Senate Forums Series, bringing well-known speakers in many walks of life to the rostrum. Here Sen. Allen Ellender of Louisiana engages in informal discussion with members of his audience.

To: President Jack S. Wilkes

From: William E. Nolan, Director, Enrollment Counseling

Subject: Report to the Board of Trustees

The Office of Enrollment Counseling has been operating with a staff of four. Miss Nellie V. Strother has served as City Enrollment Counselor and has been employed by Centenary for seven years; she will retire in May 1965. Mrs. Frank Boydston has represented Centenary in Arkansas, Texas, and parts of Louisiana, serving ten full years and four years part-time as an Enrollment Counselor; she will retire in May 1965. As Director, I share my time with the Alumni Association. The Enrollment Office employs a full-time secretary, as well as student helpers part-time.

The office answers all mail regarding enrollment and is responsible for obtaining from each prospective student an application for admission, a $10 application fee, a high school and/or college transcript, a $50 room deposit and health form if the student plans to live in a dormitory, and the College Board scores.

The office has mailed over 4,000 catalogs and written over 4,000 personal letters.

Prospective students and their parents who visit the campus are conducted on tours and are considered our guests.

The Counselors visit schools and churches in a 300 mile radius of Shreveport. The office utilizes other means of recruitment which are alumni, Centenary students, parents of students, friends of the college, brochures and publications, and campus organizations.

It is important for the new student to have contact with only one office from the time of initial inquiry until he is admitted. The plan which is to become effective in June 1965 places enrollment and admissions together.

A CLOSE TEACHER-STUDENT RELATIONSHIP is among Centenary's best selling points. Here Dr. Leo G. Raub, head of the department of physics and engineering science, counsels with one of his majors.

To: President Jack S. Wilkes

From: Nelle W. Brown, Registrar

Subject: Report to the Board of Trustees

From June 1, 1964, to June 1, 1965, permanent record cards were made or pulled from previous files for 2,598 students (head count with no duplicates) who comprise the current file of 1964-65. Of this number, 394 attended only in summer, 1964, 617 only in fall, 1964, 470 only in spring, 1965, while 1117 attended both semesters of 1964-65. Their previous college work was evaluated and recorded and they were classified as 380 freshmen, 231 sophomores, 181 juniors, 171 seniors, 1,241 specials and 394 summer students. They were provided with report cards and classified lists and, on request, with individual and organization averages, transcripts, degree plans, selected service forms and application forms for teacher certification.

This office provided the President of the College with statistics for the College and for PAR; the Dean of the College with statistics, the Honor Roll and the list of the Administration and Faculty in the order desired for academic processions; the Dean of Students with classified lists of students for voting, a geographic distribution list, and, on request, evaluations of the work of certain students; the Business Office with classified lists for student insurance; and the Scholarship Committee with averages. The Faculty were given grade sheets, examination schedules and a grade distribution list each semester.

2,724 transcripts have been issued to date. Graduation procedures are in progress and diplomas have been ordered.

YEAR STATISTICS

1964 - 1965

The fall enrollment plus new students spring equals the regular session enrollment.

Regular Session, 1964-65	MEN	WOMEN	TOTAL
Freshmen	194	186	380
Sophomores	134	97	231
Juniors	81	100	181
Seniors	84	87	171
Total Regular Session	493	470	963
Specials	858	383	1241
Total Regular Session	1351	853	2204#
Summer Session, 1964*	204	190	394
Total for year**	1555	1043	2598

* Did not enter fall or spring.

** Count with no duplicates of all regular and special students 1964-65 beginning with summer, 1964.

Centenary College maintains a scholarship and grant-in-aid program for worthy students in need of financial assistance. Any student who applies for aid must have a "C" average, or above, to qualify.

During the year 1964-65, Centenary College has assisted 657 students; 337 in the Fall and 320 for the Spring semester, in the amount of $120,353.30.

Listed below are Grants and Scholarships for 1964-65. (This report is prepared on an overall basis for the Fall and Spring Semesters, so, as indicated above, some students have been included twice. 337-Fall and 320-Spring.

			Number of Students	Amount Received
1.	MINISTERIAL STUDENTS GRANTS (1/2 tuition)		32	$ 4,236.00
2.	DEPENDENTS of Faculty, Staff, Minister's Dependents. (Minister's Dependents receive 1/2 tuition - Others Full tuition)		79	17,708.10
3.	OTHER - (Grants) (Students with grades of below "B" but in need of assistance)		110	16,105.15
4.	HONOR SCHOLARSHIPS (Grants given to Freshman with overall average of "B" or better. Also for National Merit Finalist and Semi-finalist)		112	14,743.00
5.	ATHLETIC SCHOLARSHIPS	approx.	70	19,773.21
6.	CHOIR SCHOLARSHIPS		16	2,775.00
7.	BAND SCHOLARSHIPS		18	2,270.00

		Number of Students	Amount Received
8.	DONATED SCHOLARSHIPS (Endowed-Restricted and those paid directly to students)	212	$40,242.84
9.	SCIENCE FAIR SCHOLARSHIPS	4	1,000.00
10.	DEBATE SCHOLARSHIPS	4	1,000.00
11.	MISS SHREVEPORT (In cooperation with Jaycees)	1	250.00
12.	MISS HOLIDAY IN DIXIE	1	250.00
	TOTAL		$120,353.30

Centenary also administers a Loan Program consisting of National Defense Student Loans, State Loans, National Methodist Church Loan Funds, Endowed Loans and special loans.

SUNDAY-EVENING PROGRAM

The three Methodist churches adjacent to the campus, Broadmoor, First and Noel, along with the Minister to the Campus have conducted a Sunday evening program each Sunday: Supper, 5:00, program, 5:30, worship, 6:30. This has presented a number of very interesting programs, including faculty members, films, and speakers from outside the campus.

FACULTY CHRISTIAN FELLOWSHIP

The Faculty Christian Fellowship held its regional meeting last June at Texas Wesleyan College in Fort Worth, Texas. This meeting was chaired by Dr. Woodrow Pate of our Economics Department while the executive secretary was The Reverend Robert Ed Taylor, Minister to the Campus. Half of our summer faculty attended this meeting. This interest and participation of our faculty (which was the largest there excepting the host school) was most heartening.

Dr. Pate and Reverend Mr. Taylor attended the National Faculty Christian Fellowship Meeting at the University of Chicago in August.

Two discussion groups by our local faculty were held on matters relating to religion and higher education following our return from the Fort Worth Conference. A third discussion group was held in preparation for the coming regional conference on "Faculty Concern With Student Values."

Faculty members are most cooperative in helping in the various areas of religious activities on the campus. Many individual faculty members continue to distinguish themselves by the help and counsel they give to students, thus fulfilling their role as teachers in a church-related college, interested in the whole person.

CHAPEL

Among the speakers in chapel this year were:

Professor Joe Graber
Bishop William C. Martin, Dallas
Bishop Gerald Kennedy, Los Angeles
Dr. Martin Browne, London
Mr. Patterson Benner, Board of Missions, Japan
Dean Charles Sprague, Tulane
Dr. Don Nichols, Chandler School of Theology, Atlanta
Dr. Schubert Ogden, Perkins School of Theology, Dallas
Dr. Virginia Carlton
Dr. Jack Wilkes
Dean Bond Fleming
Dr. Webb Pomeroy
Dr. Alton Hancock
Dr. Walter Lowrey

MINISTER TO THE CAMPUS--OTHER DUTIES

As Minister to the Campus, I seek to have a ministry of counseling to students and staff. This involves academic, vocational, personal, and religious counseling. I make visits to the hospital to see students and staff when I know of their illness.

I have taught six hours each semester this year, with approximately 45 students each semester.

I serve on faculty/administrative committees.

I have spoken at a number of churches representing the college, preaching, teaching, etc.

I attended the Danforth Conference on Church-Related Colleges in Dallas, April 1, 1965.

INTER-FAITH COUNCIL

The Inter-Faith Council is a group composed of officers, representatives, and chaplains of the religious organizations on campus. They are the

Baptist Student Union, the Canterbury Club, the Methodist Student Movement, the Newman Club, the Westminster Fellowship, and the Christian Scientists group.

The Council this year planned three events and carried out two. A brochure or directory of the religious organizations and their activities was printed and distributed to all students at the beginning of the year. An organization of discussion groups, "Campus Conversations", was spotted around the campus during the week of the Willson Lectures. A third event, a Christmas fellowship and service project out-of-doors, was cancelled due to freezing rain.

THE METHODIST STUDENT MOVEMENT

Methodist students this year have had the opportunity and invitation to participate in carefully planned programs by the MSM Council. Examples of some programs and their leaders are as follows:

Christian Ethics and American Foreign Policy	Dr. Leroy Vogel
Sexual Revolution and The Christian Reaction	The Reverend John Winn
The Student and World Perspective	Dr. Jack Wilkes
The Contemporary Negro Mind	Professor Dale Johnson
The Relevancy of Christianity in the Modern World	Dr. Schubert Ogden
"Should We Censor"	A Panel by Dr. Webb Pomeroy and Professor Gael Hammer
The Death of A Salesman	A Film
Mr. Marc Hulslander	Three Year Missionary in Japan
The Miracle of Dialogue Honest To God	Dr. Edward Clark and Dr. Lee Morgan
International Concerns	Dr. Joe J. Mickle
The Meaningfulness of the Church, Yesterday and Today	Dr. Alton Hancock
Dr. J. B. Holt	From SMU

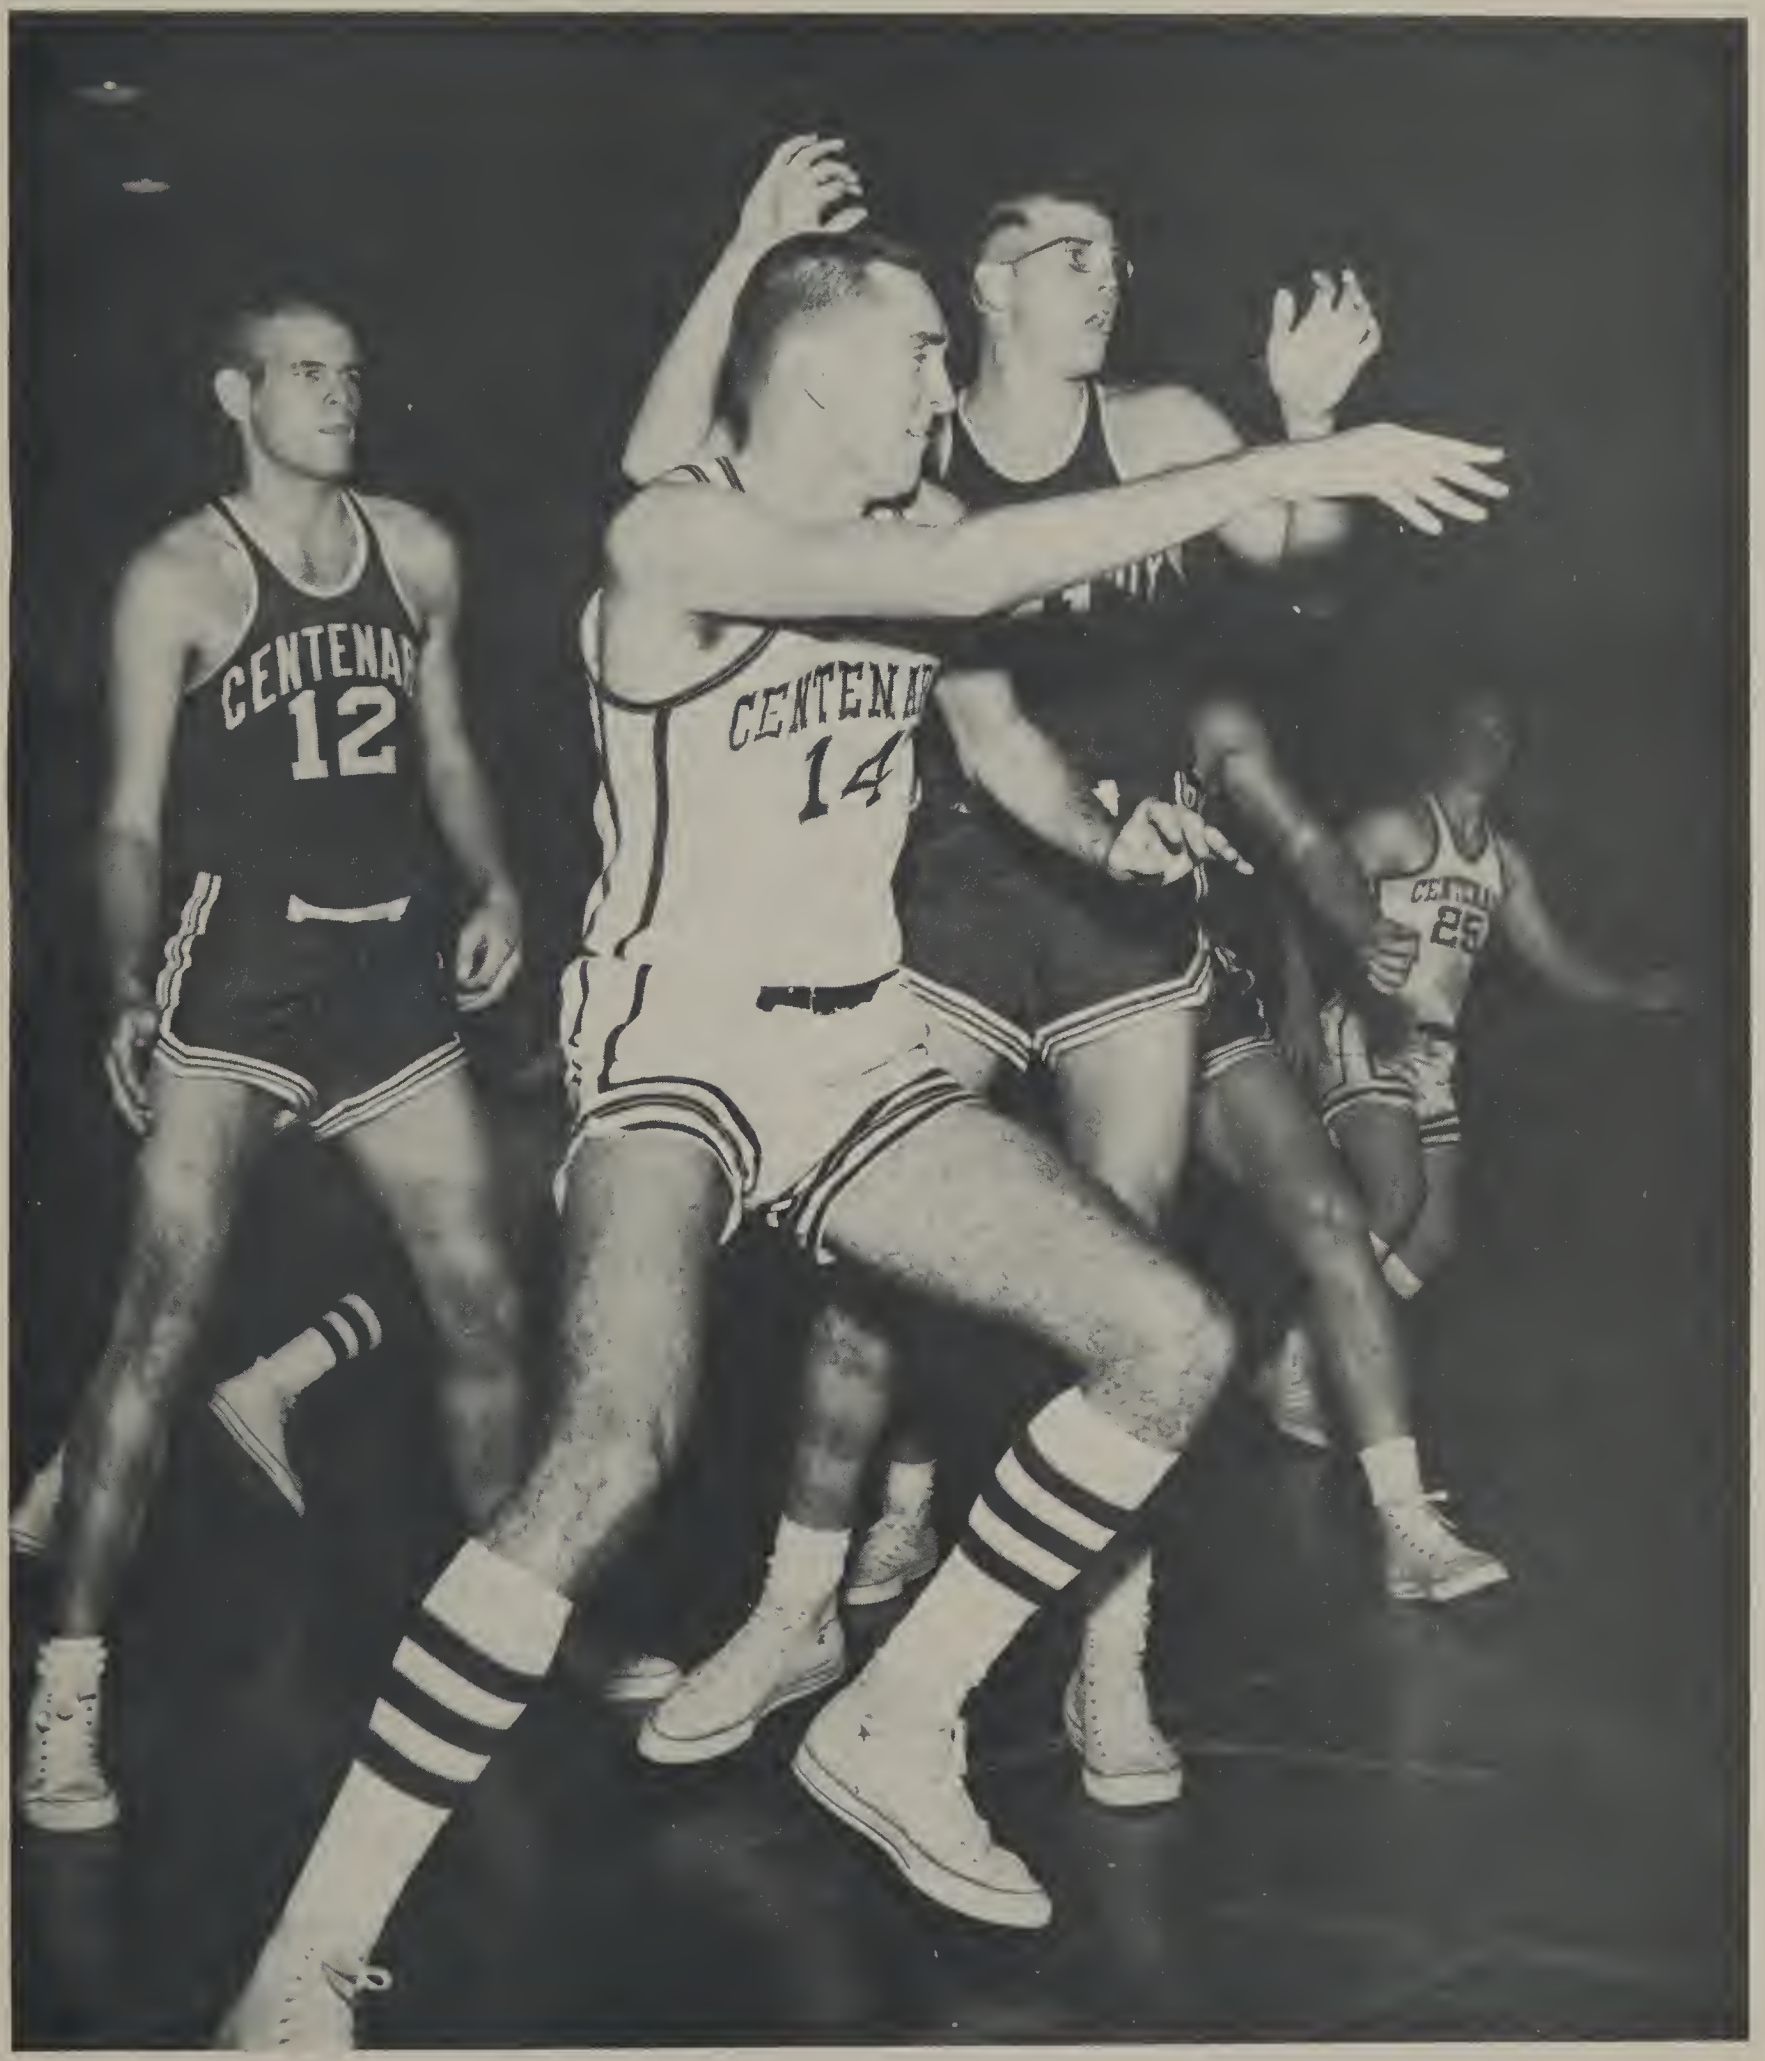
In addition to regular Thursday night programs, the MSM has organized five small person-centered groups that met during the Spring semester. This was one of the most valuable parts of our program as we feel this was a fine communication of the gospel through personal relationships.

Three students attended the National Methodist Student Movement Conference in Lincoln, Nebraska, December, 1964.

Five students attended the State MSM Conference in Lafayette, Louisiana, February, 1965.

Twenty-three students attended the fall retreat at Camp Caney, while ten of the council members attended a spring planning retreat also at Caney.

HERE'S A NOVEL PHOTOGRAPHIC EFFECT: the Brown Memorial Chapel as seen through one of the circular windows in the cupola of the new Centenary Library.



TOMMY KERWIN (number 14) wasn't playing for keeps when this photo was made--only working against the freshmen in the annual pre-season exhibition. But when serious action began, Tom was again the Gents' top scorer with a 24.2 per-game average. He'll be a senior next year.

To: President Jack S. Wilkes

From: Orvis Sigler, Director of Athletics

Subject: Report to the Board of Trustees

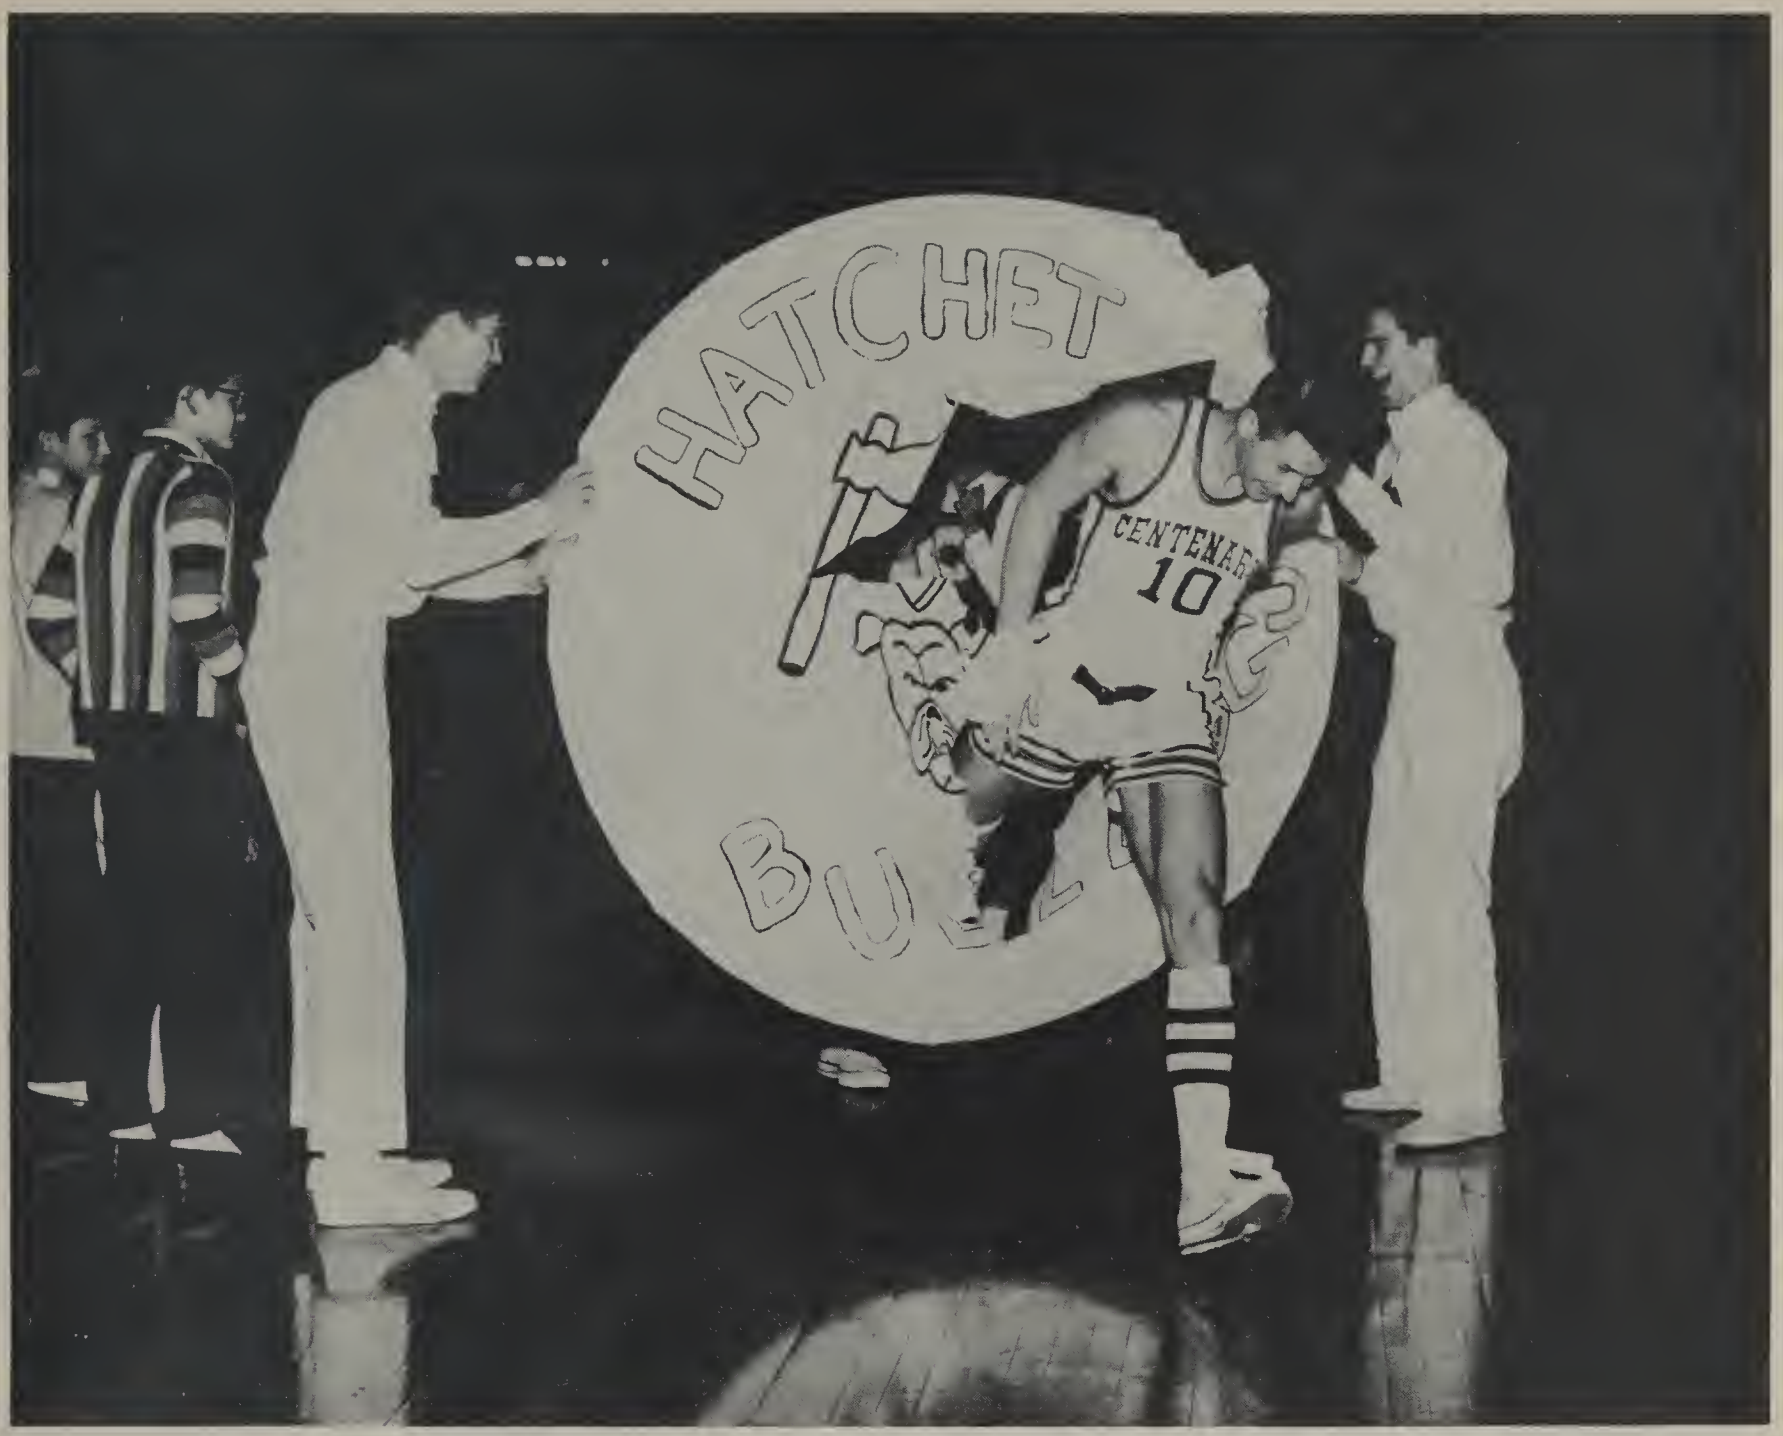
During the fall months of September, October, and November, the Athletic Department undertook a fall sports program that consisted of intercollegiate baseball, golf, and tennis. The baseball team played six (6) games with a record of 4-1-1. The golf team competed in a tournament, taking first place. The tennis team competed against several local tennis clubs. Competition in these sports enables us to comply with the NCAA rules.

Basketball enjoyed a fairly successful season, winning 13 and losing 11. Six (6) of the teams competed against were participants in post-season tournaments. The team appeared before 20,699 people at home and 46,800 people on the road. Basketball gained national publicity by playing from Philadelphia, Pa. to El Paso, Texas. Tom Kerwin made the Associated Press Honorable Mention All-American squad. He was also picked on ten all-opponent teams this year. The Freshmen basketball team compiled a record of 12 and 6. They were coached by Mr. Stan McAfoos, who is completing work towards his degree.

The basketball team again reached many people through the media of radio and television. All games, both home and away, were carried over radio station KRMD. For the second year our home games were televised on a delayed basis by station KTBS-TV, Channel 3. We had many fine comments from fans in the Ark-La-Tex about these telecasts.

Baseball, coached by Mr. Douglas Mooty, is having a good year, and to this date has a 9 and 4 record. Golf, coached by Mr. Morton Braswell, who is not a member of the college faculty but donates his services, is having a good year in spite of being short of personnel. Tennis, coached by Mr. Malcolm Patterson, is also short of personnel with only four boys out for the team.

Both Coaches Sigler and Mooty have had numerous speaking engagements before school, civic, and church groups throughout the area. Attendance at home athletic events was a little below a year ago, but it was still over the previous years. The athletic future looks good with most of the personnel from this year's teams returning for next year.



CAPT. JERRY BUTCHER "crashes the barrier" prior to a game with arch-rival Louisiana Tech.

KICKOFF DINNERS like this one at Alexandria featured the area phase of Centenary's 1964 Campaign for Excellence.

From: F. H. Delaney, Director of Development

Subject: Report to the Board of Trustees

GENERAL CAMPAIGN RESUME

Through April 1, 1965, the Development Office has collected a total of $1,837,667.16 in pledges from both the state and civic campaigns. Cash payments are running about 39% of the amount pledged.

An evaluation of outstanding potential indicated that we should receive between $50,000.00 and $75,000.00 additional pledges in the city sometime within the second and third quarter of this year. Follow-up procedures have been established so that we will have every chance to receive these anticipated gifts.

CIVIC CAMPAIGN

The campaign in the City of Shreveport has produced 1,332 pledges for a total of $1,309,574.68.

Mr. John B. Atkins, Jr., did a very outstanding job as Shreveport Chairman. He was called upon time and again for additional effort in recruiting leadership and workers and in personally making calls on high potential prospects; he was most generous with his time and in using his personal influence for the benefit of Centenary College.

The Development Committee headed by Mr. Edwin F. Whited worked many hours over the campaign plan, recruiting and in support of Mr. Atkins. To this group, we must attribute a great measure of the success we have had in raising funds for Centenary College in the City of Shreveport.

STATE CAMPAIGN

As of April 1, 1965, the statewide campaign has reported 4,961 church and individual pledges for a total of $528,092.48.

Our success in the conference campaign is a personal tribute to the hard work and influence of Bishop Aubrey Walton and Mr. J. C. Love, Jr. as campaign chairmen.

Bishop Walton gave unstintingly of his time and personal influence throughout the state in creating a climate of friendship and warmth for Centenary College. Mr. J. C. Love, Jr., through his personal association with many of the clergy and laymen of the state and his willingness to give of his time provided the state campaign with additional impetus.

There is an excellent future giving potential from the state and the college has plans to institute a new and revitalized program of conference relations.

Going into the state campaign, there were no prospect lists, nor any other helpful information. As an important by-product, our prospect file now contains 47,150 names and represents 450 Methodist churches or charges. These records represent the foundation from which our new program of conference relations can operate.

The state-wide campaign was a tremendous breakthrough for the college in its relationship with the Methodists of Louisiana. Thousands of Methodists received first hand information on the college, its program and its Christian mission in higher education. These contacts, properly cultivated, should result in additional students, financial support, and an understanding by Methodists and others of Centenary College's important position in Louisiana and this region in the years ahead.

10,000 Methodists in the state received direct personalized mail and brochures during the state campaign. The advance gifts kick-off dinners, with an average attendance of 250, gave us face to face contact with 2,000 Methodists. A speaking team composed of Bishop Aubrey G. Walton, Mr. J. C. Love, Jr. and Dr. Jack Wilkes carried the Centenary message to these significant gatherings.

On October 18, many of the television stations in the state co-operated in presenting this same speaking team on a taped state-wide Centenary College campaign program.

DEVELOPMENT PROGRAM

A most important follow-up to any campaign is the collection period, which in this instance extends to January, 1967. The proper maintenance of records, the sending of statements, and posting of pledge accounts and the follow-up of delinquent accounts are necessary to prevent shrinkage in the total amounts raised. To insure this follow-up and proper accounting procedure, the Development Office has installed I.B.M. #632 accounting equipment for record and bookkeeping purposes. This system will enable the development staff to handle thousands of records and prospects without employing additional personnel.

As a result of our two campaigns and the additional records developed, the college will publish a development newsletter six times a year beginning in May, 1965. The purpose of this newsletter will be to inform donors of the use of funds contributed, news of faculty, staff, and students and to present plans for the future development of the college. Immediate plans call for a Great Teachers Fund campaign in late 1965 or early 1966 for $150,000.00

and cultivation of business, industry, and foundations to be co-ordinated with the 10 year plan of development and fund raising.

To: President Jack S. Wilkes

From: William E. Nolan, Alumni Director

Subject: Report to the Board of Trustees

For the past fiscal year the Alumni Association, under the leadership of President Cecil Ramey, has taken several important steps.

Glennette Williamson, working part-time in the Alumni Records Office, has made 1935 address changes; as a result of up-dating these records, the office has been able to contact more alumni than ever before. Shreveport and Dallas chapters were organized. Jimmie Serra is giving able leadership to the Shreveport chapter and Wynn Stanton is serving as president of the Dallas chapter. Other chapters are located in New Orleans, Houston, Baton Rouge and Monroe. Parents of students have been included in chapter meetings. Prospective students and parents are invited to chapter meetings which serve as excellent means of recruitment.

The 1964-65 Homecoming has been acclaimed by the board as the best yet. Mitzi Middlebrooks served as Chairman of Homecoming. Bob Stacy, heading publicity, did a splendid job. Over 500 alumni and spouses attended the banquet and dance. Mrs. F. L. Norton served as Chairman of the 25th Anniversary with 50 members of the 1940 class present at the dinner.

The 1965 senior class has begun a plan of making a pledge of $50 per person to the Alumni Association, payable over a five year period at $10 per year. Three-fourths of the students at the class meeting made voluntary pledges to the Association. Some have paid their pledges in full.

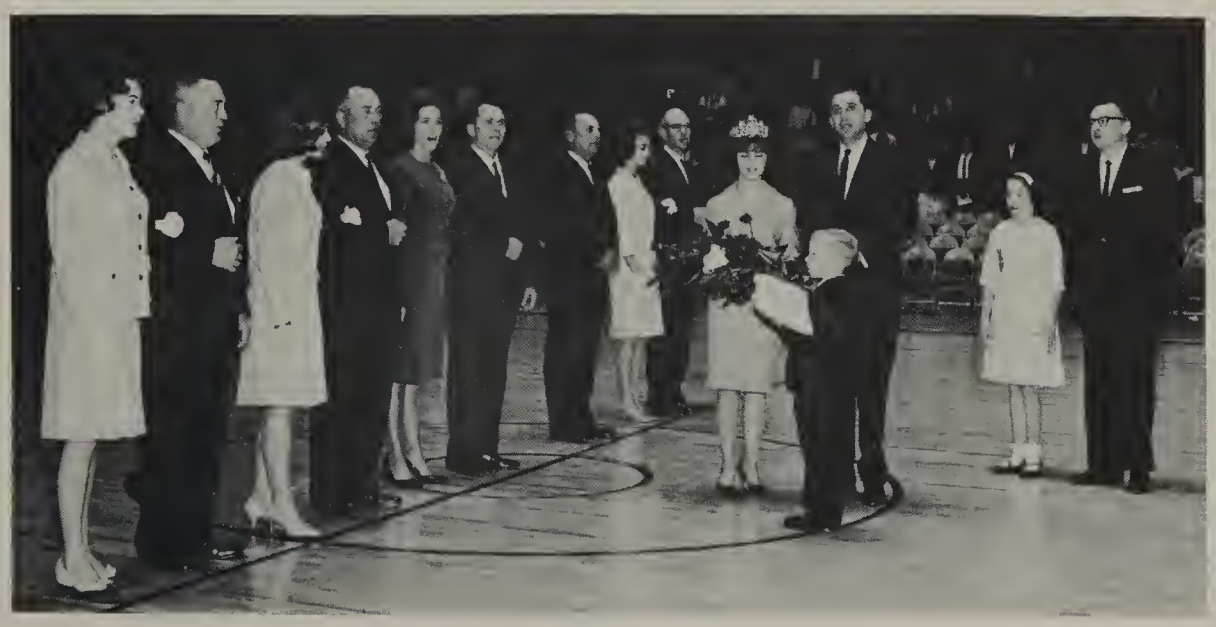
The Hall of Fame, a program to honor outstanding graduates and ex-students, will be initiated at the next Homecoming.

The Fourth Annual Alumni Giving program, under the leadership of Austin Robertson, and the Century Club, under the leadership of Ed Noland, raised $6,097 from 206 alumni. From this fund three full scholarships have been maintained and some equipment has been purchased. The fund has a balance of $5,588.96. The balance for the same date in 1964 was $6,289.31.

Thirty-seven thousand letters, announcements, and papers have been mailed out of the Alumni Office.

The Association has continued to spread good will for Centenary through the alumni publication, "This Is Centenary." Other things in which the Association has been involved include the Faculty-Alumni Tea, honoring President and Mrs. Wilkes and new faculty members; presentation of miniature diplomas to graduating seniors; Homecoming; Annual Giving; chapter meetings; scholarships; and athletic programs.

A good spirit prevails and greater things for Centenary can come as a result of this good spirit.



THE CENTENARY ALMA MATER is sung prior to the 1965 Homecoming basketball game at Hirsch Youth Center. President Jack Wilkes has just crowned Homecoming Queen Doris Stewart. Members of the Court and their alumni escorts are ranged at left.

To: President Jack S. Wilkes

From: F. D. Austin, Comptroller

Subject: Report to the Board of Trustees

I am just completing the eighth month as Comptroller of Centenary College, hence most of my time has been devoted to learning the duties of the position and the personnel of the college. There have been some definite high points which I will cover in separate paragraphs below.

PERSONNEL

Mrs. Lelia Randolph, Assistant Comptroller, has resigned, effective May 31, 1965. She has been an efficient and loyal employee of Centenary College for many years. This change will be a great loss to the college.

NATIONAL DEFENSE STUDENT LOAN PROGRAM

The records of this program have been greatly improved. We are keeping up with the students more efficiently after they leave the college and an extra effort is being made to collect these loans.

PROPERTY IMPROVEMENTS

Rotary Hall has been completely renovated and refurnished. It is now up to the same standard of appearance and comfort as the newer dormitories. The property at 254 Rutherford Street has been completely renovated for the President's new home. It is quite attractive. This property was given to Centenary by Mr. Arch Haynes. We are also installing draperies in the Chapel. These should improve the appearance of the sanctuary and give better protection to the pews from the sunlight.

CAFETERIA

Mrs. Hudgings has served attractive and appetizing meals to the students and faculty this year. The present cafeteria operation is definitely an asset to the college. It has also operated at a profit.

BUDGET FOR 1965-1966 FISCAL YEAR

We wish to present to you for your consideration and adoption the budget for Centenary College of Louisiana for the ensuing year. This budget may be found on the following page. It covers the period from June 1, 1965 through May 31, 1966. We estimate the receipts to be $1,708,409.00 and the disbursements to be $1,678,250.00.

PRESIDENT WILKES is caught in an informal moment as he listens to students discussing academic freedom at a campus gathering.

CENTENARY COLLEGE OF LOUISIANA

OPERATING BUDGET ESTIMATES

APRIL 1, 1965

CENTENARY COLLEGE OF LOUISIANA

CAPITAL FUND BUDGET

June 1, 1965 - May 31, 1966

We hope to receive money from the Development Fund to cover the following expenses for the 1965-1966 college year.

Receipts from Development Fund - City	$400,000	
Disbursements from Development Fund - City:		
Note, Commercial National Bank (Library)		$290,000
Interest on note due 6-20-65		14,500
Interest on note due 2-1-66 (Estimate)		9,500
Loan from Barrow Fund (Library)		70,033
Income on Barrow Fund (Estimate to 6-1-66)		15,967
Totals for Development Fund - City	$400,000	$400,000

Receipts from Development Fund - State	$ 70,000	
Disbursements from Development Fund - State:		
Wesley Foundation		$ 70,000
Totals for Development Fund - State	$ 70,000	$ 70,000

To: President Jack S. Wilkes

From: John W. Fiser, Director of Public Information

Subject: Report to the Board of Trustees

NEWS BUREAU. During the past fiscal year the News Bureau has fulfilled its function of publicizing the news of Centenary through the various news media, both locally and throughout the area. In addition to releases to Shreveport newspapers, stories have been sent to home-town papers of students telling of their accomplishments, and these have generally been used. Over and beyond releases prepared by this office, we have been successful in generating a number of lengthy feature stories by full-time personnel of Shreveport papers. Local television channels have been more active in carrying news of campus events than at any previous time since television came to the city. The wires of the two major news services have given extensive coverage to a number of campus events: the election of President Wilkes, the Middle East Conference, the Centenary Gymnastics Clinic, the overseas tour and World's Fair appearance of our drama department, and of course, the more or less routine wire coverage of our athletic teams.

SPECIAL PROMOTIONS. The Director of Public Information spent a great deal of time during the summer of 1964 in advance promotion of the area Campaign for Excellence--both in preparation of news releases throughout the state, editing of brochures, preparation of special editions of "The Louisiana Methodist" and "Together", and on-the-spot promotion during the campaign meetings themselves.

In early 1965 the Director was public relations chairman for the Methodist Mission of Love in the Ark-La-Tex, and prepared a series of news releases, television and radio spots, and a portion of a half-hour television show explaining the Mission.

TV AND RADIO. The department has been responsible for two regular weekly shows over local air media: "Campus Bull Session", a half-hour panel discussion aired on Sunday mornings by KSLA-TV, and a half-hour variety show called "Centenary Magazine of the Air" presented each Sunday evening over Radio Station KWKH. Although the free times donated for these purposes have been far from "prime", these presentations do reach a number of persons and have been commented on favorably. Our personnel have also made numerous interview-type appearances on local shows. A half-hour television presentation called "Labor Omnia Vincit" was produced by this office, placed on video tape at a local channel and aired over seven state channels in connection with the Campaign for Excellence--all at the minimal cost of producing the show.

PUBLICATIONS. The News Bureau has been responsible for editing "This Is Centenary", the quarterly alumni publication; "Scuttlebutt", a mimeographed faculty-staff news bulletin distributed each Friday; a number of development brochures and leaflets; and has assisted in preparation of the college catalogue, a student solicitation brochure and various other mailing pieces. Plans are now in progress for a quarterly development newsletter to be distributed to 7,500 donors and prospective donors, and publication was to begin in May, 1965.

The Director is also responsible for the advisorship to the two student publications: the newspaper "Conglomerate" and the yearbook "Yoncopin." Although he does not claim credit, the newspaper during this year has stimulated campus interest to an unprecedented degree while making definite gains in readership. Indications are that the 1965 yearbook will be one of the finest ever at Centenary.

THE CENTENARY CONFERENCE ON THE MIDDLE EAST was generally rated one of the high points of the year. Israeli Consul Avshalom Caspi is shown discussing the modern history of his ancient nation.

XI, no. 4: 187-191, (December, 1964); "Additional Techniques for Teaching Spanish", SELA, vol. VII, no. 2:15,18, (September, 1963).

Book Reviews: A total of 11 in Books Abroad and Prix International du Premier Roman.

Critical Annotations: A total of 134, all in Twentieth Century Literature.

Memberships in Professional Organizations: Member of Committee on Graduate Studies - Centenary College; Regional Director, Northwestern Louisiana, College Division, Louisiana Foreign Language

Teachers Association; Secretary and Program Director, Modern and Classical Languages Section, Conference of Louisiana Colleges and Universities, 1965-1966; Chairman, Local Arrangements, LFLTA convention, Shreveport, Louisiana, November 24, 1964.

Discussion Panels: Member of discussion panel, together with Dean William Moseley (LSU - New Orleans), Dr. George Wilkins (Tulane University), and Professor Mary Metz (LSU), at the Conference of Louisiana Colleges and Universities, Baton Rouge, Louisiana, March 5, 1965--Subject: "Equating high school and college credits in foreign languages;" Radio discussion with Mr. Jack Fiser, KWKH, Shreveport, Louisiana, March 21, 1965--Subject: "Electronic laboratory techniques in the teaching of foreign languages at Centenary", On the Centenary Magazine of the Air.

Academic Paper: "Variants of 'L'Avvelanato' in Italy, Scotland and Louisiana", read before the general session of Kentucky Foreign Language Conference, April 23, 1965, University of Kentucky, Lexington, Kentucky.

Translations: Letter--Italian to English for Bell Telephone Company, September 26, 1964: Advertising slogans--English to French for automobile show, advertising agency, November, 1964; Business contract--Spanish to English, 6 page contract, December, 1964; Technical sales manual--English to French for Gym-Dandy Mfg. Co., Bossier City, Louisiana, January, 1965; Assembly and Proof-Reading of German and Spanish translations of same sales

manual, January, 1965; Letter--French to English, concerning description, prices and dimensions of various lawnmowers for Pro, Inc., February, 1965.

Professional Meetings: Attended Louisiana Foreign Language Teachers Association meetings at Shreveport, Louisiana, November, 1965; Attended meetings of Conference of Louisiana Colleges and Universities, Baton Rouge, Louisiana, March 5-6, 1965; Attended Kentucky Foreign Language Conference meetings at the University of Kentucky, Lexington, Kentucky, April 22, 23, 24, 1965.

Promoted to Assistant Editor, Twentieth Century Literature, January, 1965 (Denver, Colorado); Contributor and Staff Member, French VI Bibliography (Nineteenth Century French Bibliography), published by The French Institute, New York, New York; Contributor and Staff Member, French VII Bibliography (Twentieth Century French Bibliography), published by The French Institute, New York, New York.

COCHRAN, D. Rhea, assistant professor:

Translation: English to Spanish--technical sales manual of lawn and playground equipment for Gym-Dandy Mfg. Co., Bossier City, Louisiana, January, 1965.

Judge of Interscholastic Debates and Speech Contests at Centenary, March 5-6, 1965.

Corresponding Secretary: Phi Sigma Iota, National Honor Fraternity for Romance Languages; Liaison Officer with the National Headquarters.

Attended LFLTA meetings, Shreveport, Louisiana, November, 1964.

FELSHER, William M., assistant professor:

Worked on Ph.D. dissertation at L.S.U.

Attended Louisiana College Conference, March, 1965.

HALLIBURTON, C. Lloyd, assistant professor:

Articles: Two 7-8 page articles on Colombian poetry in fall and winter numbers of Boletin cultural y bibliografico, (Bogota, Colombia).

Translation: 15 page legal contract for petroleum concessions in Mexico for Western Geophysical, Shreveport, Spanish to English, March, 1965.

Professional Meetings Attended: Louisiana Foreign Language Teachers Association, Shreveport, Louisiana, November, 1964; Conference of Louisiana Colleges and Universities, Baton Rouge, Louisiana, March 5-6, 1965.

Special Lectures: 3 lectures each semester in Great Issues, 2 day periods and one 3 hour night period per semester--Subject: "Religion", Total: 6 lectures.

Worked on Ph.D. dissertation at L.S.U. Accepted State Department grant for summer study in Spain, 1965.

NICKEL, Dr. J. W., associate professor:

Television: Series of Russian lessons, 15 minutes each, KTBS-TV, Summer, 1964.

Academic Paper: "Russian Language", Russian Section, S.C.M.L.A., Lubbock, Texas, November, 1964.

RUSSELL, John R., assistant professor:

Worked on Ph.D. dissertation at Princeton University.

Publications, Textbooks, and Readers: Russell, John R. and Natusch, Erich: British and American Humour (Braunschweig: Georg Westermann Verlag, 1964), 78 pp.; Russell, John R. and Blohm, Kurt, editors: Burl Ives' Tales of America (Braunschweig: Georg Westermann Verlag, 1964), 72 pp.

Critical Annotations: A total of 12, all in "Twentieth Century Literature."

Attended LFLTA meetings, Shreveport, Louisiana, November, 1964; Conference of Louisiana Colleges and Universities, Baton Rouge, Louisiana, March 5-6, 1965.

Translation: English to German, technical sales manual of lawn and playground equipment for Gym-Dandy Mfg. Co., Bossier City, Louisiana, January, 1965.

Special Lectures: 6 lectures in Great Issues: 3 each fall and spring semesters, two days and one 3 hour evening assignment per semester--Subject: "Science--Man in relation to Man."

DEPARTMENT OF ENGLISH

BUCKNER, Zeak M., instructor:

Wrote history of the Selber family, "The Selber Story", now being privately printed.

Attended Southern Conference Modern Language Association, Lubbock, Texas, November, 1964, and Conference of Louisiana Colleges and Universities, Baton Rouge, March, 1965.

CALLEN, Dr. Shirley, associate professor:

Article: "Planter and Poor White in Absalom, Absalom! , Wash and The Mind of the South", in SCMLA Bulletin.

Attended Southern Literary Festival, Oxford, Miss., April, 1965, and Louisiana Folklore Society, Lafayette, May, 1965. Appeared on "Campus Bull Session" television show, March, 1965.

CLARK, Dr. Edward M., professor and head of department:

Addressed Caddo Council of Teachers of English, December, 1964; attended Modern Language Assn., New York, December, 1964, and Louisiana College Conference, Baton Rouge, March, 1965; headed Statement of Purpose Committee of Institutional Self-Study.

GUERIN, Dr. Wilfred L., professor:

Contributed two chapters to book on Sir Thomas Malory, published August, 1964; completed work on book of literary criticism with Dr. Lee Morgan, contributing one chapter and the conclusion, co-authoring the glossary and some of the preface and bibliography and, with Dr. Morgan, editing the entire manuscript.

Addressed a section of high school student convention at St. Vincent's Academy on religion in college; attended South-Central Modern Language Assn., Lubbock, Texas; Louisiana State AAUP, New Orleans, where was re-elected state historian; Louisiana College Conference, Baton Rouge, where was secretary of English section; and Louisiana Council of Teachers of English, Ruston.

JOHNSON, Dale S., assistant professor:

Had paper read at South-Central Modern Language Assn., Lubbock, Texas, November, 1964; addressed Shreveport Round Table Club, March, 1965

Spent summer, 1964, in study toward Ph.D. at University of Michigan, and will return in June on Danforth Fellowship.

MC NAIR, Thomas W., instructor:

Completed short story to be included in anthology by L.S.U. Press in 1966.

Attended Louisiana Council of Teachers of English, Ruston, November, 1964, Conference of Louisiana Colleges and Universities, Baton Rouge, March, 1965.

MORGAN, Dr. Lee, professor:

Co-authored textbook, "A Handbook of Critical Approaches", with Dr. Wilfred Guerin and others, scheduled for publication in November, 1965.

Addressed Women's Department Club; Methodist Student Movement; Alpha Chi; First Presbyterian Church, El Dorado, Arkansas; participated in "Campus Bull Session" television panel.

Attended South-Central Modern Language Assn., Lubbock, Texas, November, 1964, where was chairman of 18th Century Literature section; national convention of Alpha Chi Scholarship Society, March, 1965.

Was general chairman of Institutional Self-Study.

DEPARTMENT OF MATHEMATICS

CARLTON, Dr. Virginia, professor and head of department:

Returned last summer from year as Fulbright Teacher at University College, Cape Coast, Ghana.

Addressed Louisiana Teachers Assn., Shreveport, November, 1964; Regional meeting of National Council of Teachers of Mathematics, Biloxi, Miss., February, 1965; Assn. of Computing Machinery,

Shreveport, January, 1965; Byrd High School Mathematics Club; East Texas Council of Mathematics Teachers, Nacogdoches, Texas, April, 1965; Wayland College, Plainview, Texas, chapel, April, 1965; Webster Parish High School Teachers, Minden, April, 1965.

Attended Mathematics Assn. of America and American Math Society, Denver, Colorado, January, 1965.

DANVERS, Donald M., instructor:

Delivered series of five public lectures on "Order, Completeness, and Continuity."

SPEAIRS, Mrs. Richard K., assistant professor:

Attended Mathematical Assn. of America-National Council of Teachers of Mathematics joint meeting, Biloxi, Miss., February, 1965; served as vice-chairman, Louisiana-Mississippi branch of National Council of Teachers of Mathematics, 1964-65; elected chairman for 1965-66; Attended Louisiana Academy of Sciences, Natchitoches, March, 1965.

TREESE, George W., instructor:

Attended Mathematics Assn. of America-National Council of Teachers of Mathematics joint meeting, Biloxi, Miss., February, 1965.

DEPARTMENT OF HISTORY AND GOVERNMENT

LOWREY, Dr. Walter M., professor:

Article: "Engineers and the Mississippi", Louisiana History, fall, 1964.

Addressed Mansfield Rotary Club; First Methodist Church, Shreveport, church night; AAUW, Shreveport; Social Studies Curriculum Committee; Caddo Pre-School Conference.

Attended Southern Historical Assn., Little Rock, November, 1964; Louisiana College Conference, Baton Rouge, March, 1965; Louisiana Historical Assn., Opelousas, November, 1964; Northwest Louisiana Historical Assn., Homer, Bossier City, 1964-65.

Served on planning committee of Conference on Middle East.

OVERDYKE, Dr. W. Darrell, professor:

Completed book which is now in hands of Architectural Publishing Co., New York, and scheduled for fall publication. Work of thirty years.

Attended Southern Historical Assn., Little Rock, Ark., November, 1964; Louisiana Historical Assn., Opelousas, April, 1965; Northwest Louisiana Historical Assn., Shreveport and Bossier City, 1964-65.

RAINEY, Dr. Viva, assistant professor:

Appeared on two television shows: "Campus Bull Session" and television news "Meet the People."

Headed student tour of Mexico during mid-semester break.

Attended Louisiana College Conference, Baton Rouge, March, 1965.

Served on planning committee of Conference on Middle East.

VOGEL, Dr. Leroy, professor and head of department:

Originated and pushed through organization of Centenary College Conference on the Middle East, 1965, and planning for similar annual conferences on other areas of the world.

Received Fulbright Grant for summer study in Cairo, Egypt, Seminar on Egyptian Civilization, 1965.

DEPARTMENT OF SPEECH AND DRAMA

ALEXANDER, Ruth J., associate professor:

Directed third annual Centenary College Forensic Tournament, bringing more than 600 individual entrants to campus; coached Centenary debate squad which won many honors in area tournaments.

Addressed many clubs, judged speech contests. Attended Louisiana Speech Assn., November, 1964.

COREY, Orlin, associate professor and head of department:

Directed touring company of "The Book of Job" and "Reynard the Fox" at New York World's Fair, and in Canada, England and South Africa, September, 1964, to January, 1965. Delivered lectures on theatre in New Delhi, India, Bangkok, Thailand, and Tokyo, Japan, during subsequent world tour.

Announced release of commercial record of "The Book of Job" by Word Records, Waco, Texas, summer, 1964.

GRABER, Joe V., instructor:

Directed "Rhinoceros" and "As You Like It" at Marjorie Lyons Playhouse; built set for "Royal Gambit", "The Cocktail Party" and "The Spy" at Playhouse; directed "Faust", "Barber of Seville", "Boris Godounov" for Shreveport Symphony Society; produced program for First Methodist Church, March, 1965; prepared program on Shakespeare for 20th Century Club, March, 1965.

Addressed Methodist Student Movement, Shreveport Symphony Society, Woodlawn High School, Shreveport Credit Assn., Tulane Conference, Bossier High Drama Club, Women's Club.

Appeared on several television programs, including "Campus Bull Session."

Attended Southwest Theatre Conference, Fayetteville, Ark., October, 1964; Speech Assn. of America, Children's Theatre Conference and American Educational Theatre Assn., December, 1964; Tulane Conference, Shreveport, March, 1965.

Studied toward Ph.D. at Queens College, New York, in summer.

DEPARTMENT OF CHEMISTRY

ENTRIKIN, Dr. John B., professor and head of department;

Co-authored third edition of Cheronis, Entrikin and Hodnett's "Semi-micro Qualitative Organic Analysis", April, 1965. Co-authored with students three papers published in Journal of Chemical Education.

Attended Southwest Regional meeting of American Chemical Society, and was one of three program chairmen there.

HANSON, Dr. Marvin Wayne, associate professor:

Wrote and presented paper at Southwest Regional meeting, American Chemical Society, and was member of organization and equipment committees of conference.

Also attended analytical symposium, L.S.U., January, 1965; Department Heads' Conference on Undergraduate Chemistry, Houston, March, 1965, and was discussion moderator; Louisiana Academy of Sciences, Natchitoches, April, 1965; and National Science Fair, St. Louis, Mo., as regional representative, May, 1965.

Served again as director of Region I Science Fair at Centenary, April, 1965; was Centenary representative on Science Education Council; was secretary-treasurer of American Chemical Society until February, 1965, and program chairman for same group until September, 1964; helped organize LAMECO-Federal Credit Union on campus and served as treasurer until February, 1965.

Addressed Arthur Circle and Southfield PTSA's, Springhill Science Club, Bossier High Chemistry Club, Northwestern Junior High Science Club, Haynesville Science Club.

TAYLOR, Stanton A., associate professor:

Researched through National Science Foundation grant on hydration of organic acids in olefin solvent by partition method.

Attended Southwest Regional meeting of American Chemical Society, Shreveport, December, 1964.

Worked on Ph.D. dissertation at University of Oklahoma.

DEPARTMENT OF EDUCATION AND PSYCHOLOGY

HUGHES, Elizabeth, assistant professor:

Addressed Caddo Parish Workshop for Supervisors of Student Teachers; Children's Story League; participated in "Campus Bull Session" on television.

Attended Caddo Parish Workshop for Supervisors of Student Teachers, October-November, 1964; Louisiana Teachers Assn., Shreveport, 1965.

MAC CURDY, Dr. Robert D., professor and head of department:

Articles: "How Do You Conduct an Elementary Science Fair?", pamphlet for Cambosco Scientific Co., 1964; "The Perplexed Principal", Louisiana Schools, January, 1965; "Office Space at a Premium", Louisiana Schools, January, 1965.

Addressed North Caddo High School, Caddo Supervising Teachers Conference, John Knox Presbyterian Church, Bossier City, Bossier City Classroom Teachers and Montessori School Assn., April, 1965. Accepted invitation to address national education fraternity in St. Louis in June.

Attended American Assn. of Colleges of Teacher Education as official delegate; Louisiana Teachers Assn., Shreveport, 1965; state meeting of Louisiana Science Education Curriculum Committee; state meeting of Louisiana Science Teachers Assn.

Presented ninth annual Centenary Teacher Fair.

SNELLING, Vera, assistant professor:

Attended SRA one-day reading clinic, Texarkana, October, 1964; Louisiana Teachers Assn., Shreveport, November, 1964; Beaumont Remedial Clinic, March, 1965; convention of Assn. for Childhood Education International, New York, April, 1965.

TOUCHSTONE, Dr. Frank V., associate professor:

Served as associate editor of Rehabilitation Counseling Bulletin.

Addressed St. Paul's Episcopal Church Lenten Series, March, 1965.

Received summer appointment as staff member at National Defense Education Act Institute for teachers at Purdue University, 1965.

WYNN, Robert S., Jr., instructor:

Researched in "An Experimental Comparison of Three Methods of Teaching Percentage at Grade Seven."

Worked on Ph.D. dissertation at Colorado State College.

SCHOOL OF MUSIC

BEASLEY, Rule, associate professor and director:

Compositions: "Psalm 148 for Women's Chorus and Percussion", soon to be performed by Shreveport Choral Ensemble; "First String Quartet", performed last August at Bennington, Vt.; "Prayer for Bassoon and Organ", taped and played as a part of Mr. Teague's lecture-demonstration at Music Teachers National Assn., Dallas, Texas.

Addressed Women's Department Club; gave program notes at concert by Shreveport Woodwind Quintet at Texarkana College, March.

Attended National Assn. of Schools of Music; Louisiana Music Teachers Assn.; and Forum of Contemporary Music, where one of own compositions was played, Tuscaloosa, Ala., April, 1965; Music Teachers National Assn.

DEAN, Ronald E., assistant professor:

Recitals (organ): Lecture-recital, Women's Department Club, November, 1964; recital at state convention, Louisiana Music Teachers Assn., October, 1964; public recital at Brown Memorial Chapel, April, 1965.

HARLAN, Monas, associate professor:

Initiated new Opera Workshop in collaboration with department of Speech and Drama, presenting two one-act operas.

Attended executive committee, Louisiana Music Teachers Assn., June, 1964; regional workshop, National Assn. of Teachers of Singing, August, 1964; was chairman, voice section, Louisiana Music Teachers Assn., state convention, October, 1964; chairman, auditions (voice), Shreveport Symphony, December, 1964; Louisiana College Conference, March, 1965; national convention, Music Teachers National Assn., March, 1965; chairman, voice section, LMTA; adjudicator at LMTA District IV Vocal Festival.

LA GRONE, Jeanine, instructor:

Public recitals at college and for Women's Department Club.

Judged for Shreveport Federation of Music Clubs and in Shreveport Symphony concerto competition.

Attended Louisiana Music Teachers Assn., October, 1964, where performed at special luncheon; National Association of Teachers of Music, March-April, 1965.

Awarded M.M. degree by George Washington University.

PERKINS, Frances Mary, assistant professor:

Attended Louisiana Music Teachers Assn., October, 1964; Robert Pace Workshop for Piano Teachers, Greater Shreveport Music Teachers Assn., Shreveport, January, 1965; David Kruenbuhl Theory Workshop, Greater Shreveport Music Teachers Assn., February, 1965.

TEAGUE, William, assistant professor:

Played about 25 concerts on two transcontinental tours.

Addressed national convention of Music Teachers National Assn.

Had series of organ recitals re-broadcast over radio station KWKH.

Attended national convention, National Guild of Organists, June, 1964; state convention, Louisiana Music Teachers Assn., October, 1964; Music Teachers National Assn., March, 1965.

DEPARTMENT OF HEALTH AND PHYSICAL EDUCATION

EDWARDS, Vannie, instructor:

Coached U.S. women's gymnastics team in 1964 Olympic Games; was chief instructor at National Gymnastics Clinic, Sarasota, Florida.

Articles: "Olympic Report", Modern Gymnast, December, 1964; "Highlights of 1964 Olympics", Olympic Report of U.S. Olympic Committee.

Addressed Shreveport Touchdown Club, November, 1964; Baton Rouge Chamber of Commerce, December, 1964; McComb, Miss., Chamber of Commerce, February, 1965; F.C.A. Conference, Shreveport, February, 1965; Shreveport Rotary Club, February, 1965; U.S. Embassy in Tokyo.

Originated and directed first Centenary College Gymnastics Clinic, February, 1965.

Attended Louisiana Teachers Assn., Shreveport, November, 1964; National Assn. for Health, Physical Education and Recreation,

Dallas, Texas, March, 1965; North American Congress of Gymnastics Coaches, March, 1965.

Worked on master's degree at L.S.U.

PATTERSON, Malcolm, assistant professor and acting head of department:

Addressed Second Air Force Basketball Tournament banquet, Barksdale AFB; Boy Scouts of America.

Researched in effects of training on general motor performance, analysis of pole vaulting technique through cinematography, as part of Ph.D. dissertation at L.S.U.

Attended Louisiana College Conference, March, 1965; Health Sciences Institute, New Orleans, October, 1964; served as general chairman of convention of Louisiana Assn. for Health, Physical Education, and Recreation, Shreveport, November, 1964; American Association for Health, Physical Education and Recreation, Dallas, Texas, March, 1965; Dallas meeting of President's Council on Physical Fitness, May, 1965.

SMITH, Etoyal, instructor:

Attended Louisiana Assn. for Health, Physical Education and Recreation, November, 1965; National Association of Physical Education for College Women; Southern Assn. of Physical Education for College Women, March, 1965; American Assn. of Health, Physical Education and Recreation, March, 1965.

Worked on Ph.D. degree at University of Alabama.

WHITE, Barbara Faye, instructor:

Was member U.S. Curtis Cup golf team and played in international tournament in France. Named Shreveport's "Best Ad" for 1964

and had 1965 Ark-La-Tex Sports Banquet dedicated to her. Was general chairman in organizational stages for Shreveport Open Golf Tournament.

Attended national convention of A.A.H.P.E.R., Dallas, Texas, March, 1965. Assisted Patterson in Louisiana A.A.H.P.E.R. convention, Shreveport, November, 1964.

DEPARTMENT OF BIOLOGY

WARTERS, Dr. Mary, professor and head of department:

Researched in genetics at Centenary and at Oak Ridge National Laboratory, on continuing National Science Foundation grant.

Addressed Shreveport Rotary Club, New Orleans Alumni Assn. chapter, workers in Centenary Campaign for Excellence.

Accepted bid to attend Conference on Genetics Teaching in Colleges at Fort Collins, Colorado, this summer. Will also attend Mendel Centennial Celebration and meeting of Genetics Society of America at same place.

DEPARTMENT OF ECONOMICS AND BUSINESS

PATE, Dr. Woodrow W., professor and head of department:

Served on planning committee for Middle East Conference.

Was regional chairman of Southwest Faculty Conference, Fort Worth, Texas, June, 1964; was chairman of a seminar at conference on "Faith and Learning in the University", Chicago, Illinois, August, 1964; discussion leader at Southern Bell Seminar on Public Utilities Economics, New Orleans, January, 1965; member, nominations

committee, Louisiana College Conference, Baton Rouge, March, 1965; co-chairman, North Louisiana Personnel Management Conference, Shreveport, March, 1965; retiring president, Region II, and program chairman for regional convention, Alpha Chi, Abilene, Texas, March, 1965; chairman, section on "Business Conditions and Prospects for 1965", Southwestern Economic Forum, Lafayette, April, 1965; attended Southwest Division, American Collegiate Schools of Business, Dallas, Texas, April, 1965; Southwestern Social Science Assn., Dallas, Texas, April, 1965.

TREWATHA, Dr. Robert L., associate professor:

Articles: "Estimated Purchases and Out-of-City Purchases of Selected Products Used by Shreveport Manufacturers, 1963", published by Shreveport Chamber of Commerce; "Upper-Age-Limit Hiring Policies; Racial or Discriminatory?", to be published by Industrial Research and Extension Center, University of Arkansas.

Addressed Shreveport Management Society and Research Committee, Industrial Division, Shreveport Chamber of Commerce.

Attended Southern Economic Assn., November, 1964, and Louisiana College Conference, March, 1965.

DEPARTMENT OF GEOLOGY

HICKCOX, Charles A., associate professor and head of department:

Gave four lectures to elementary school classes and worked with public school science teachers.

Selected to attend summer school in geography, McGill University, Montreal, Canada, 1965.

Attended Southeast Section, Geological Society of America, Nashville, Tenn., April, 1965.

SHAW, Nolan G., assistant professor:

Researching in Bryozoa of the Gulfian Cretaceous of Southwestern Arkansas, as part of Ph.D. dissertation at L.S.U.

Lectured at public schools.

Attended Geological Society of America, Nashville, Tenn., April, 1965; regional monthly meetings of Shreveport Geological Society; Faculty Christian Fellowship, Fort Worth, Texas, June, 1964.

DEPARTMENT OF RELIGION

HANCOCK, Dr. Alton O., assistant professor:

Researching in field of Reformation Studies. Has received grant from Foundation for Reformation Studies, St. Louis, Mo., for summer research there.

Preached at Springhill, Mansfield, Many, Caddo Heights; is regular Church School teacher at Noel Memorial.

POMEROY, Dr. Webb D., professor and head of department:

Article: "Christmas Story", in Shreveport Times, December, 1964.

Held Shreveport District Bible Conferences in Shreveport, Vivian, Mansfield; held Bible Conference, Lake Charles, and Christ Church, Shreveport; Holy Week Bible Study, St. Paul's Methodist Church, Monroe; "Teachings of Jesus" course for state MYF meeting, Shreveport; Shreveport District Training School,

January, 1965; City-Wide Bible Conference, Montgomery, Ala., January, 1965; School of Theology, New Orleans, February, 1965.

Addressed Cedar Grove Methodist Youth Fellowship, Louisiana Annual Conference Laymen's Retreat, Memorial Methodist Church, Monroe, and King's Highway Christian Church.

Attended Faculty Christian Fellowship, Fort Worth, Texas.

DEPARTMENT OF PHYSICS AND ENGINEERING SCIENCE

GOFF, Richard D., instructor:

Studied toward Ph.D. at Texas A&M on NSF grant.

KRAJNER, Jesa, assistant professor:

Participated in Summer Institute on Aerospace Mechanics, Tucson, Arizona, and Conference on Electromagnetism, Middletown, Conn., on NSF grant, summer, 1964; accepted as participant in Conference on Applied Mathematics, Oklahoma State University, June, 1965, and Nuclear Defense Design meeting, Worcester, Mass., July-August, 1965.

Attended American Physics Society and American Assn. of Physics Teachers combined meeting, New York, and Columbia University combined engineering plan meeting, New York.

PARKER, Edmund M., professor:

Article on Three-Two Combined Engineering Program for alumni publication "This Is Centenary", January, 1965.

Talk and slide demonstration at Woodlawn High School, 1964.

Selected to attend University of Arkansas Three-Two Engineering Program workshop, August, 1965; attended Columbia Three-Two Engineering Conference, October, 1964; was voting delegate at Louisiana College Conference, Baton Rouge, March, 1965; was Southwestern Division college representative at American Society of Engineering Education, 1964.

DEPARTMENT OF ART

COOPER, Willard, associate professor and head of department:

Held one-man show of 28 paintings in Library Gallery; completed ten paintings in oil, tempera, polymer, and studies for additional works including woodcuts, sketches, etc.; exhibited on five occasions with Louisiana Artists, Inc., and with the contemporary group.

Addressed faculty of Claiborne School, congregation of Broadmoor Methodist and classes at Noel Methodist Churches; illustrated lectures for clubs, sororities; judged art exhibits for several groups.

Attended Louisiana College Conference, Baton Rouge, March, 1965.

DEPARTMENT OF PHILOSOPHY

SHEA, James M., instructor:

Attended meeting of Woodrow Wilson Internes, Atlanta, Ga., October, 1964.

Worked on Ph.D. dissertation at Cornell University.

DEPARTMENT OF SOCIOLOGY

PLEDGER, Dr. W Farrell, professor and head of department:

Participated in area phase of Campaign for Excellence in six different churches.

Addressed four civic groups.

CENTENARY FACULTY MEMBERS are no strangers to the speaker's rostrum, either on campus or off. Dr. Virginia Carlton, head of the department of mathematics, has been an especially sought-after lecturer since her year in Ghana as a Fulbright Teacher.

CENTENARY'S JONGLEURS continued to bring new plays, as well as old favorites, to the Marjorie Lyons Playhouse. Here's a scene from the October production of "Royal Gambit" by Hermann Gressieker, presented for the first time in this area.

REPORT ON STATUS OF FACULTY AND STAFF

For the record, the following faculty members have had tenure appointments at Centenary College during the academic year 1964-1965:

Theodore T. Beck	...	Professor of French and Head of Department of Foreign Languages.
Virginia Carlton	...	Professor and Head of the Department of Mathematics.
Edward Murray Clark	...	Professor and Head of the Department of English.
Bryant Davidson	...	Professor of History and Government.
John B. Entrikin	...	Professor and Head of the Department of Chemistry.
Bond Fleming	...	Professor of Philosophy (also Dean of the College).
Wilfred L. Guerin	...	Professor of English.
Charles A. Hickcox	...	Professor and Head of the Department of Geology.
Ira Lee Morgan	...	Professor of English.
W. Darrell Overdyke	...	Professor of History and Government.
Edmond M. Parker	...	Professor of Engineering Sciences.
Woodrow W. Pate	...	Professor of Economics and Head of the Department of Economics and Business.
W. Ferrell Pledger	...	Professor of Sociology and Religion and Head of the Department of Sociology.
Webb D. Pomeroy	...	Professor and Head of the Department of Religion.
Leroy Vogel	...	Professor and Head of the Department of History and Government.
Mary Warters	...	Professor and Head of the Department of Biology.
Ruth Joy Alexander	...	Associate Professor of Speech (and Acting Head of the Department of Speech and Drama).
Rule Beasley	...	Associate Professor of Music and Director of the School of Music.
B. P. Causey	...	Associate Professor of Music.

Willard Cooper	...	Associate Professor and Head of the Department of Art.
Orlin R. Corey	...	(On leave, 1964-1965) Associate Professor and Head of Department of Speech and Drama.
Marvin Wayne Hanson	...	Associate Professor of Chemistry.
Monas Harlan	...	Associate Professor of Music.
Fariebee P. Self	...	Associate Professor of Mathematics.
Richard K. Speairs	...	Associate Professor of Biology.
Stanton A. Taylor	...	Associate Professor of Chemistry.
Alvin C. Voran	...	Associate Professor of Choral Literature.
Orin P. Wilkins	...	Associate Professor of Biology.
Leslie E. Burris	...	Assistant Professor of English
Ronald E. Dean	...	Assistant Professor of Music.
Elizabeth Hughes	...	Assistant Professor of Education.
Opal P. Menefee	...	Assistant Professor of Business.
Frances Mary Perkins	...	Assistant Professor of Piano and Theory.
Lenore Rees	...	Assistant Professor of Spanish.
Nolan G. Shaw	...	Assistant Professor of Geology.
Betty McKnight Speairs	...	Assistant Professor of Mathematics.

RECOMMENDATIONS FOR STAFF AND FACULTY APPOINTMENTS

The following persons not on tenure are recommended for reappointment for the academic year 1965-1966:

Administration:

Bond Fleming	...	Dean of the College.
Walter C. Hohmann	...	Dean of Students, Director of Admissions.
Julia M. Packwood	...	Dean of Women.

Nelle Brown	...	Registrar.
Edna S. Worley	...	Assistant Registrar.
Frank D. Austin	...	Comptroller.
F. H. Delaney	...	Director of Development and College Relations.
John W. Fiser	...	Director of Public Information.
Robert Ed. Taylor	...	Chaplain and Director of Church Relations.

Faculty:

Walter M. Lowrey	...	Professor of History.
Robert D. MacCurdy	...	Professor of Education and Head of the Department of Education and Psychology.
Shirley P. Callen	...	Associate Professor of English.
Frank V. Touchstone	...	Associate Professor of Psychology.
Dorothy Rhea Cochran	...	Assistant Professor of Spanish.
Howard M. Elder	...	Assistant Professor of Latin.
William Felsher	...	Assistant Professor of Romance Languages.
Charles L. Halliburton	...	Assistant Professor of Spanish.
Alton O. Hancock	...	Assistant Professor of Religion.
Charles W. Harrington	...	Assistant Professor, Librarian.
Jesa Krajner	...	Assistant Professor of Physics and Engineering Sciences.
Kathleen Owens	...	Assistant Professor, Assistant Librarian.
Viva L. Rainey	...	Assistant Professor of History and Government.
John R. Russell	...	Assistant Professor of German.
Vera Snelling	...	Assistant Professor of Education.
William C. Teague	...	Assistant Professor of Music.
Zeak M. Buckner	...	Instructor in English.

Donald Danvers ... Instructor in Mathematics.

Vannie Edwards ... Instructor in Physical Education.
